## SYMBOLS

The following symbols are used where applicable:

- .. figures not available.
- ... figures not appropriate or not applicable.
- nil or zero.
- - amount too small to be expressed.
- P preliminary figures.
- r revised figures.
- x confidential to meet secrecy requirements of the Statistics Act.
- \* includes head offices, sales offices and auxiliary units.

## SIGNES CONVENTIONNELS

Les signes conventionnels suivants sont employés lorsqu'il y a lieu:

- .. nombres indisponibles.
- ... n'ayant pas lieu de figurer.
- néant ou zéro.
- - nombres infimes.
- P nombres provisoires.
- r nombres rectifiés.
- x confidentiel en vertu des dispositions de la Loi sur la statistique relatives au secret.
- \* comprend les sièges sociaux, bureaux de vente et unités auxiliaires.

## ABBREVIATIONS

- n.e.s.: Not elsewhere specified.
- S.I.C.: Standard Industrial Classification.

## ABRÉVIATIONS

- n.c.a.: Non classé(e)s ailleurs.
- C.A.E.: Classification des activités économiques (titre français du système de classification industrielle de 1970).

## REPORTS ON THE ANNUAL CENSUS OF MANUFACTURES

This report is one of the general, or all-industry, series presenting the results of the annual Census of Manufactures. The complete general series, containing principal statistics on individual industries and industry groups for all of Canada or its various geographical subdivisions, is as follows:

## RAPPORT CONCERNANT LE RECENSEMENT ANNUEL DES MANUFACTURES

Le présent rapport fait partie de la série générale qui s'applique à toutes les industries et qui donne les résultats du recensement annuel des manufactures. Voici la série générale complète contenant les statistiques principales sur chaque industrie en particulier et sur les groupes d'industries au Canada entier ou dans ses différentes subdivisions géographiques:

<sup>1</sup> Principal statistics of industries for economic regions, counties or census divisions, Census Metropolitan Areas, specific Census Agglomerations and municipalities.

In addition to these general reports, some 120 annual reports on individual industries contain quantities and values of products shipped and of materials used by the individual industry as well as some of the principal statistics carried in the general reports and certain additional industry information.

A list of all the reports on the Census of Manufactures is included in the bureau's Subscription Order Form, obtainable on request from the Publications Distribution Unit, Statistics Canada, Ottawa.

<sup>1</sup> Statistiques principales sur les industries pour les régions économiques, les comtés ou divisions de recensement, les régions métropolitaines de recensement, des certaines agglomérations de recensement et des municipalités.

En plus de ces rapports généraux, il existe quelque 120 publications annuelles sur des industries particulières; celles-ci contiennent les données suivantes: quantité et valeur des produits livrés et des matières utilisées par chaque industrie, certaines des statistiques principales publiées dans les rapports généraux et certaines données supplémentaires sur chaque industrie.

Le bulletin d'abonnement contient une liste de toutes les publications du recensement des manufactures; on peut obtenir le bulletin d'abonnement en en faisant la demande à Distribution des publications, Statistique Canada, Ottawa.

## General

The 1974 issue of *Manufacturing Industries of Canada: Sub-provincial Areas* is the first since 1972. Due to problems encountered in the implementation of the Standard Geographic Classification<sup>1</sup> codes to the Census of Manufactures, a delay in making 1973 data available occurred. In order to keep up with demand for more current information, no 1973 issue of this report will be forthcoming. However, a few summary tables of 1973 statistics have been incorporated in this report. These summary tables of 1973 data will show the all-industry data for economic regions, Census Metropolitan Areas (CMA's), selected Census agglomerations (CA's), municipalities and counties.

The main tables of this report present the principal statistics compiled at one or more of three levels of aggregation (all industry, industry group or industry) for economic regions, CMA's selected CA's, specified municipalities and counties. The specified municipalities listed at the all-industry level are those with shipments of goods of own manufacture of \$750,000 or more in 1974 (\$600,000 in 1973) which were publishable in accordance to the provisions of the Statistics Act.

Appendix I presents in tabular format, the number of establishments by employment size range for about one half of the municipalities in Canada which contain manufacturing establishments. This table provides what is in effect a profile of the size of manufacturing establishments in any municipality which has three or more establishments.

Principal statistics on the manufacturing industries aggregated at the provincial and Canada levels are published in *Manufacturing Industries of Canada: National and Provincial Areas*, Catalogue 31-203.

The basic data for this report, as in those for 1970 and subsequent years, have been compiled according to the 1970 revision of the Standard Industrial Classification.<sup>2</sup> A list of the industries included in the Census, together with their S.I.C. codes, is published as Appendix II. Readers wishing information on the effect of implementing the 1970 revision of the Standard Industrial Classification are referred to the 1970 issue of *General Review of the Manufacturing Industries of Canada, Volume I*, Catalogue 31-203.

## Généralités

L'édition de 1974 des *Industries manufacturières du Canada: niveau infraprovincial* est la première depuis 1972. Les problèmes posés par l'application des codes de la Classification géographique type<sup>1</sup> au recensement des manufactures ont retardé la diffusion des données de 1973. On ne publiera pas l'édition de 1973 afin de répondre à la demande de renseignements plus actuels. Toutefois, quelques tableaux sommaires des statistiques de 1973 ont été incorporés dans cette publication. Ils donnent les résultats pour l'ensemble de l'industrie dans les régions économiques, les régions métropolitaines de recensement (R.M.R.), certaines agglomérations de recensement (A.R.), les municipalités et les comtés.

Les principaux tableaux de ce bulletin présentent les statistiques importantes selon un ou plusieurs des trois niveaux d'agrégation (ensemble des industries, groupe d'industries, industrie) et pour les régions économiques, les R.M.R., certaines A.R., certaines municipalités et les comtés. Ont été énumérées au niveau de l'ensemble des industries les municipalités où les livraisons de produits de propre fabrication s'élèvent à \$750,000 ou plus en 1974 (\$600,000 en 1973) et dont les données pouvaient être publiées conformément à la Loi sur la statistique.

L'appendice I présente, sous forme de tableau, le nombre d'établissements selon la taille de l'effectif pour à peu près la moitié des municipalités du Canada où se trouvent des établissements manufacturiers. Ce tableau fournit ce qui constitue effectivement un profil de la taille des établissements manufacturiers dans toute municipalité comprenant trois établissements ou plus.

Les principales statistiques sur les industries manufacturières regroupées aux niveaux des provinces et du Canada figurent dans la publication intitulée *Industries manufacturières du Canada: Canada et provinces*, n° 31-203 au catalogue.

Les données de base du présent bulletin ainsi que celles de 1970 et des années suivantes ont été compilées d'après la version révisée de 1970 de la Classification des activités économiques<sup>2</sup>. L'appendice II renferme la liste des industries recensées ainsi que leurs codes de la C.A.É. Pour plus de renseignements sur les répercussions qu'a causées l'application de la nouvelle Classification des activités économiques, le lecteur est prié de consulter l'édition de 1970 de la publication intitulée *Industries manufacturières du Canada: Revue générale, Canada et provinces*, n° 31-203 au catalogue.

<sup>1</sup> Statistique Canada, *Classification géographique type*, 1974, n° 12-546 au catalogue.

<sup>2</sup> Statistique Canada: *Classification des activités économiques, révisée, 1970*, n° 12-501F au catalogue.

Data are collected by means of three main types of questionnaires mailed to establishments classified to the manufacturing industries: the "long form" sent to large establishments, requesting detailed information on principal statistics and on commodity inputs and outputs, the "short form" sent to small establishments, asking for minimum principal statistics and no commodity detail and the "head office" sent to head offices and ancillary units. Copies of the "General Questionnaire" long form (without detailed manufacturing commodity inputs and outputs which are specific to each industry), of the short form and of the head office questionnaire are reproduced as Appendices A, B and C of the 1975 issue of Catalogue 31-203. Although the questionnaires referred to are for 1975, no significant changes occurred in the questionnaires between 1974 and 1975.

The criteria for differentiating "large" and "small" establishments varies by industry and province (and through time) but, in general, are governed by the objective of minimizing respondent burden without the loss of a significant amount of commodity data.

### Concepts and Definitions

An abbreviated version of the major concepts and definitions used in the Census of Manufactures is printed as "Explanatory Notes" on the inside back cover of this report. Copies of the detailed "Concepts and Definitions" are available on request from the Regional Statistics Section, Manufacturing and Primary Industries Division, Ottawa, Ontario, K1A 0T6.

### Effects of "Short Forms" on Interregional and Historical Comparisons

One of the more significant changes in recent years was the introduction in 1970 of a considerably simplified "short form" for small establishments, which is briefly described under "small establishments" in the "Explanatory Notes" on the inside back cover. Changes introduced at that time affect virtually all items of principal statistics for small establishments and are most noticeable in industries, provinces or other groupings of data where small establishments account for a significant proportion of principal statistics.

A rather detailed discussion of some of the changes to the "short form" in 1970 are contained in "Census of Manufactures, Technical Paper No. 1, Revision of the Short Form and Change in Fiscal Years

La collecte de l'information se fait au moyen de trois types de questionnaires qui sont envoyés par la poste aux établissements classés parmi les industries manufacturières: le "questionnaire long" envoyé aux grands établissements afin de recueillir des renseignements détaillés sur les statistiques principales et les entrées et sorties de marchandises; le "questionnaire abrégé" envoyé aux petits établissements dans le but d'obtenir quelques statistiques principales sans s'attacher aux détails sur les marchandises; et le "questionnaire du siège social" envoyé aux bureaux principaux et aux unités auxiliaires. On trouvera respectivement en appendices A, B et C de l'édition de 1975 de la publication n° 31-203 au catalogue, un exemplaire du questionnaire long (sans les détails relatifs aux entrées et sorties de marchandises, qui sont particuliers à chaque industrie), du questionnaire abrégé et du questionnaire du siège social. Bien que les questionnaires en cause se rapportent à 1975, ce sont sensiblement les mêmes qu'en 1974.

Les critères servant à distinguer les grands des petits établissements varient selon l'industrie et la province (et aussi dans le temps); toutefois, ils ont pour tâche commune de réduire le plus possible le fardeau des répondants sans pour autant perdre un volume important de données sur les marchandises.

### Concepts et définitions

Une version abrégée des principaux concepts et définitions utilisés dans le cadre du recensement des manufactures figure dans les "Notes explicatives", au recto de la couverture arrière de la publication. On peut en obtenir la version intégrale en s'adressant à la Section de la statistique régionale, Division des industries manufacturières et primaires, Statistique Canada, Ottawa (Ontario), K1A 0T6.

### Répercussions des questionnaires abrégés sur les comparaisons interrégionales et chronologiques

L'une des modifications les plus importantes apportées au cours des dernières années a été l'introduction en 1970 d'un questionnaire abrégé fort simplifié pour les petits établissements. Le questionnaire est décrit brièvement sous la rubrique "petits établissements" dans les "Notes explicatives" à l'intérieur de la couverture arrière. La refonte du questionnaire influe sur presque toutes les rubriques des principales statistiques pour les petits établissements; cette influence est plus évidente dans les industries, provinces ou autres groupements de données où les petits établissements interviennent de façon marquée dans les principales statistiques.

Un exposé détaillé de certaines des modifications apportées au questionnaire abrégé en 1970 figure dans le document intitulé "Recensement des manufactures, document technique n° 1, révision de la formule abrégée et

Accepted Beginning with the 1970 Census of Manufactures”, available from the same address noted in “Concepts and Definitions”.

The following are some consequences of the revised “short form” for the interpretation of data in this report or comparison with similar data for years before 1970.

**(a) Effect of Small Establishment Reporting on Fuel and Electricity**

As indicated in the “Explanatory Notes” on the inside back cover, information on the cost of fuel and electricity is not collected separately for small establishments but is included in “cost of materials and supplies”, beginning with 1970. Although this does not affect the calculation of “value added”, it does understate the value of fuel and electricity, especially in those industries and provinces where small establishments account for a significant proportion of the value of manufacturing shipments. In fact, ‘nil’ entries may appear in the column for “Cost of Fuel and Electricity” a somewhat unrealistic situation in an era of rapidly increasing costs for these items. Readers are cautioned, therefore, in their use of these data.

**(b) Imputation of Man-hours and Employees for Small Establishments**

As indicated in the “Explanatory Notes”, beginning with 1970 data, employees in small establishments have been imputed from reported salaries and wages; this also applies to man-hours paid. The following is a brief explanation of the method of imputation for man-hours and employees in small establishments:

- (1) The number of man-hours paid is calculated by dividing the wages and salaries reported by the estimated average hourly earnings for the relevant industry and province.
- (2) The number of man-hours worked is calculated using the appropriate ratio of man-hours worked to man-hours paid.
- (3) The number of employees is calculated using the appropriate average man-hours paid per year. (If the total man-hours paid for an establishment is the equivalent of less than 0.5 employees per year, then no employees are imputed but the man-hours figures are retained for the industry.)
- (4) Total employees are distributed into male and female using relevant ratios. All employees are considered to be production workers engaged in manufacturing activity except in the case of S.I.C. 288, Publishing only, where they are considered to be administrative, office and other non-manufacturing employees.

modification des années financières acceptées à partir du recensement des manufactures de 1970”; on peut s’en procurer un exemplaire à l’adresse mentionnée à la rubrique “Concepts et définitions”.

Voici certaines des conséquences de cette révision sur l’interprétation des données présentées ici ou la comparaison avec des données semblables pour les années antérieures à 1970.

**a) Répercussions des déclarations des petits établissements sur les statistiques du combustible et de l’électricité**

Comme il est mentionné dans les “Notes explicatives”, au recto de la couverture arrière, les renseignements concernant le coût du combustible et de l’électricité ne sont pas recueillis séparément auprès des petits établissements mais sont compris, depuis 1970, dans le coût des matières et fournitures. Bien que cette pratique n’influe pas sur le calcul de la valeur ajoutée, elle entraîne une sous-estimation de la valeur du combustible et de l’électricité dans les industries et les provinces où les petits établissements interviennent pour une part importante de la valeur ajoutée des livraisons des manufacturiers. De fait, les répondants peuvent avoir inscrit “néant” dans la colonne “coût du combustible et de l’électricité”, ce qui constitue une situation quelque peu irréaliste en cette période d’augmentation rapide des prix. Ces données sont donc sujettes à caution.

**b) Imputation des années-homme et des effectifs des petits établissements**

Comme il est mentionné dans les “Notes explicatives” à partir de 1970, les effectifs des petits établissements sont imputés à partir des traitements et salaires déclarés; cette règle s’applique également aux heures-homme rémunérées. Voici une brève explication de la méthode utilisée pour imputer les heures-homme et les effectifs des petits établissements:

- (1) Le nombre d’heures-homme est établi en divisant les traitements et salaires déclarés par les gains horaires moyens estimés dans l’industrie ou la province en question.
- (2) Le nombre d’heures-homme travaillées est calculé à l’aide du rapport entre les heures-homme travaillées et les heures-homme rémunérées.
- (3) Le nombre de salariés est établi à partir de la moyenne annuelle des heures-homme rémunérées. (Si le total des heures-homme rémunérées d’un établissement équivaut à moins de 0.5 salarié par année, aucune imputation n’est faite, mais on conservera ce chiffre au niveau de l’industrie.)
- (4) Le nombre total de salariés est réparti selon le sexe à l’aide des rapports appropriés. Tous les salariés sont considérés comme étant des travailleurs de la production participant à l’activité manufacturière, à l’exception de ceux de la classe 288 de la C.A.É. “Édition seulement”, qui sont des employés administratifs, de bureau et autres non préposés à la fabrication.

Although "short form" establishments accounted for 36.1% of the total number of establishments in 1974, their wages and salaries reported were only \$368,088,000 or 2.2% of the total wages and salaries reported for all of manufacturing. The number of employees for these establishments, based on the imputation procedures described above, was 49,130 or 2.9% of all employees accounted for in the 1974 Census of Manufactures.

### (c) Variation in Definition of Value Added

Users comparing data for geographical areas should consider whether varying proportions of data accounted for by small establishments filing the abbreviated "short form" may bias such comparisons, particularly in the case of data involving value added. This will not be a problem for national aggregates nor, for the most part, for provincial totals for industries. The proportion of output accounted for by "short forms" is designedly a small percentage of national totals for all but a few industries and this is usually the case for provincial totals also; however, for subprovincial areas very small establishments can account for a large part of particular industry totals.

Value added is calculated by subtracting purchased inputs from gross output. In the case of establishments filing the "long form", the deductions from gross output are the cost of materials and supplies used and the cost of fuel and electricity. In the case of "short form" establishments, however, the only relevant input item collected is a combined total for the cost of materials, supplies and services. Thus value added for "short forms" excludes the cost of services, while for "long form" establishments value added includes the cost of services. The difference is often not trivial for the individual establishment and whether or not a problem is involved for aggregates will depend on the relative proportions of value accounted for by "short forms". In totals where zero use of fuel and electricity is shown, all returns are "short forms", of course; a low relative use of fuel and electricity will in general be suggestive of a high proportion of "short forms" as would very low average establishment size.

### Confidentiality of data for Individual Businesses

Statistics Canada is prohibited by law from publishing any statistics which would divulge information relating to any identifiable business without the previous consent in writing of that business. In practice, this means that, for the Census of Manufac-

Bien que les établissements remplissant une formule abrégée représentaient 36.1 % du nombre total d'établissements en 1974, leurs traitements et salaires déclarés n'ont atteint que \$368,088,000 c'est-à-dire 2.2 % de ceux de toute l'activité manufacturière. L'effectif de ces établissements, calculé à partir des méthodes d'imputation présentées ci-dessus, s'est chiffré à 49,130 ou 2.9 % de tous les salariés déclarés au recensement des manufactures de 1974.

### c) Variation dans la définition de la valeur ajoutée

Les utilisateurs qui comparent les données se rapportant à des secteurs géographiques devraient voir si la variation des proportions que représentent dans les résultats les petits établissements qui remplissent les questionnaires abrégés peut introduire un biais dans ces comparaisons, particulièrement dans le cas des données concernant la valeur ajoutée. Or les agrégats à l'échelle nationale et, pour la plupart, les totaux provinciaux relatifs aux industries ne seront pas touchés. C'est à dessein que la proportion des sorties déclarées sur un questionnaire abrégé représente un faible pourcentage des totaux nationaux pour la presque totalité des industries et c'est habituellement le cas pour les totaux provinciaux. Au niveau infraprovincial toutefois, de très petits établissements peuvent compter pour une grande partie des totaux d'une industrie en particulier.

La valeur ajoutée s'obtient en soustrayant les facteurs achetés de la production brute. Dans le cas des établissements qui remplissent le questionnaire long, on retranche de la production brute le coût des matières et fournitures utilisées et le coût du combustible et de l'électricité. Quant aux questionnaires abrégés, en revanche, le seul renseignement utile est le coût global des matières, fournitures et services. Ainsi, la valeur ajoutée comprend le coût des services sur les questionnaires long mais non sur les questionnaires abrégés. La différence n'est pas négligeable pour l'établissement individuel et pourra poser un problème pour les agrégats selon les proportions relatives de la valeur ajoutée attribuables aux établissements répondant sur questionnaire abrégé. Lorsque les totaux n'indiquent aucune utilisation du combustible ni de l'électricité, toutes les déclarations sont faites sur un questionnaire abrégé, cela va de soi; une utilisation relativement faible du combustible et de l'électricité, tout comme une taille moyenne d'établissement très faible, caractérisera en général une proportion élevée de ces questionnaires abrégés.

### Confidentialité des données présentées par les entreprises particulières

La loi interdit à Statistique Canada de diffuser des données qui pourraient servir à identifier une entreprise, sans avoir obtenu au préalable l'autorisation écrite de cette dernière. Du point de vue pratique, cela signifie qu'aux fins du recensement des manufactures, aucune

tures, no data except for number, type and location of establishments are shown for industrial or geographic aggregations composed of fewer than three companies or of three or more if these are dominated by one or two companies. The names, addresses and employment size codes of establishments classified to individual manufacturing industries are published in the relevant Census of Manufactures industry report.

In order to provide a systematic publication pattern which will prevent indirect (or residual) disclosure of information relating to individual establishments, choices must often be made between the publication or suppression of different levels of industrial or geographic data. Such decisions are made in accordance with and order of precedence designed to provide as detailed data as possible consistent with provisions of the Statistics Act and with requirements for industrial and regional analysis. Thus, for individual industries, Canada is given precedence over provinces. Within provinces or regions, two-digit industry groups are normally given precedence over their component three- and four-digit industries.

For the sub-provincial areas, various factors have to be considered in deciding what data can be published. At the all-industry level, the economic regions and counties (Census divisions or regional districts in some provinces) are published; where one of these areas is confidential then a combination of economic regions or counties is made. Next taking into consideration the publishability of economic regions and counties, the CMA's are checked for publishability. If there is a conflict between publishing a CMA and a county, the counties would be recombined to overcome any problems of disclosure of confidential data. Finally, with all the municipalities which did not meet the size criteria stated earlier being considered confidential, the remaining individual municipalities are checked for publishability, taking into consideration the publishability of the economic region, county and CMA totals.

Individual industry and/or industry group data are published within a set of guidelines also. If the data are confidential at one level of aggregation any level of aggregation which is lower in preference is treated the same way. Thus if an industry is confidential at the provincial level, it cannot be published at the sub-provincial level, or if it is confidential for the economic region it cannot be published at the CMA or municipality level. The choice for individual industries are made as follows: Canada is given preference over provinces, provinces over economic regions, economic regions over CMA's and CMA's over municipalities.

donnée, à l'exception du nombre, du genre et de l'emplacement des établissements, n'est publiée sur des groupements industriels ou géographiques de moins de trois entreprises ou de trois entreprises ou plus que domine une ou deux sociétés. Le nom, l'adresse et le code de taille d'effectifs de chaque établissement faisant partie des industries manufacturières particulières figurent dans la publication appropriée du recensement des manufactures.

Afin de produire une méthode systématique de publication des données qui empêche la divulgation indirecte (ou par recoupement) de renseignements relatifs aux établissements particuliers, on doit souvent choisir entre la diffusion ou la suppression de divers niveaux de données industrielles ou géographiques. À cette fin, on a conçu un ordre de priorité nous permettant de produire quand même des données très détaillées qui respectent les dispositions de la Loi sur la statistique et les besoins en analyse au niveau de l'industrie ou de la région. Pour ce qui est des industries particulières, les données pour le Canada ont priorité sur celles des provinces. Dans le cas des provinces et des régions, les statistiques des groupes d'industries à deux chiffres passent habituellement avant celles de leurs composantes à trois et quatre chiffres.

Pour les régions infraprovinciales, la diffusion des données repose sur divers facteurs. Au niveau de l'ensemble de l'industrie, les données sur les régions économiques et les comtés (divisions de recensement ou districts régionaux dans certaines provinces) sont publiées; lorsque les données pour un de ces niveaux sont confidentielles, alors on regroupe les régions économiques ou les comtés. Puis, en tenant compte de la possibilité de publier les données des régions économiques et des comtés, on vérifie s'il est possible de publier celles des R.M.R. S'il existe un conflit entre le fait de publier les chiffres d'une R.M.R. et ceux d'un comté, les comtés seront regroupés en vue d'empêcher la divulgation de données confidentielles. Enfin, vu que l'on considère comme confidentielles les données de toutes les municipalités qui ne répondent pas aux critères de la taille susmentionnées, on vérifie s'il est possible de publier les données des autres municipalités individuelles, prenant en considération la possibilité de publier les totaux des régions économiques, des comtés et des R.M.R.

La diffusion des données pour une industrie particulière ou un groupe d'industries suit également un ensemble de lignes directrices. Si les données sont confidentielles à un niveau de regroupement, tout niveau inférieur est considéré de la même manière. Ainsi, lorsque les données d'une industrie sont confidentielles au niveau provincial, elles ne peuvent pas être publiées au niveau infraprovincial; ou si les données sont confidentielles pour la région économique, elles ne peuvent pas être publiées au niveau de la R.M.R. ou de la municipalité. Voici le rang suivi pour les industries individuelles: on donne la préférence au Canada sur les provinces, aux provinces sur les régions économiques, aux régions économiques sur les R.M.R. et aux R.M.R. sur les municipalités.

## Treatment of Separately Located Head Offices, Sales Offices and Auxiliary Units

It should be noted that head offices, etc., are included in national and provincial industry statistics, but are excluded from all sub-provincial manufacturing data. At the national and provincial level, such units are included in the individual industry of the company's largest activity and the effect on data is very small. At the sub-provincial level, however, the effects of such inclusions are considered serious enough to warrant special treatment. For example, since head offices of large multi-unit firms with Canada-wide operations tend to be located in the large metropolitan areas such as Toronto and Montréal, industry statistics for these centres would be overloaded with expenses relative to revenue and thus would distort inter-city or inter-area comparisons of manufacturing activity.

In order to avoid such distortions, the basic tables on location statistics (economic regions, counties, Census Metropolitan Areas, Census Agglomeration Areas, and municipalities) are confined to the principal statistics of establishments excluding separately located head offices and auxiliary units. These head offices, as well as establishments showing on their reports employment at other locations, were asked in 1974 to report employment and payrolls, by location, of any auxiliary unit employing 15 or more persons. These data are then given appropriate geographic codes and tabulated separately along with the main head office and other auxiliary units that have submitted separate "head office" reports.

Publishable data on employment and payroll of head offices, sales offices and auxiliary units are shown for counties or census divisions, Census Metropolitan Areas and municipalities in Tables 9, 10 and 11 respectively.

### Spatial Concepts and Definitions

#### (a) Counties

Counties are basic political and/or administrative divisions in Prince Edward Island, Nova Scotia, New Brunswick, Quebec and Ontario. In Ontario there also exist a number of regional municipalities, territorial districts and one district municipality and one metropolitan municipality. All of these are in this report treated as counties. In Quebec, Nouveau-Québec Territory is treated as a county. In Newfoundland and the Prairie provinces, the census divisions are treated as counties. The regional districts of British Columbia are also treated as counties.

## Sièges sociaux, bureaux de vente et unités auxiliaires situés ailleurs

Il faut remarquer que les sièges sociaux, etc., sont compris dans les statistiques nationales et provinciales, mais exclus de toutes les données infraprovinciales sur les industries manufacturières. Au niveau national et provincial, ces unités sont prises en compte dans l'industrie de la principale activité de l'entreprise et l'effet sur les données est négligeable. Au niveau infraprovincial, toutefois, les incidences de ces inclusions sont considérées comme assez importantes pour motiver un traitement particulier. Par exemple, comme le siège des grandes entreprises à établissements multiples dont les activités s'étendent au Canada tout entier est d'ordinaire situé dans les grandes régions métropolitaines comme Toronto et Montréal, les statistiques industrielles de ces centres feraient ressortir beaucoup trop de dépenses par rapport aux recettes, ce qui fausserait les comparaisons d'activités manufacturières entre villes et entre régions.

Pour éviter cette distorsion, les tableaux de base de statistiques géographiques (régions économiques, comtés, régions métropolitaines de recensement, agglomérations de recensement, et municipalités) s'en tiennent aux statistiques principales des établissements, à l'exclusion des sièges sociaux et des services auxiliaires situés ailleurs. Ces sièges sociaux, de même que les établissements qui déclarent avoir des salariés ailleurs, doivent déclarer le nombre de salariés et leur rémunération, selon l'endroit, pour toute unité auxiliaire comptant 15 salariés ou plus. Les déclarations de ces unités sont marquées d'un code géographique approprié et exploitées séparément, en même temps que celles des sièges sociaux et des autres unités auxiliaires qui ont présenté une déclaration distincte de "siège social".

Les données publiables sur les effectifs et rémunérations dans les sièges sociaux, les bureaux de vente et les unités auxiliaires sont présentées pour les comtés ou divisions de recensement, les régions métropolitaines de recensement et les municipalités aux tableaux 9, 10 et 11 respectivement.

### Concepts et définitions d'ordre géographique

#### a) Comtés

Les comtés sont les divisions politiques et/ou administratives de base des provinces suivantes: Île-du-Prince-Édouard, Nouvelle-Écosse, Nouveau-Brunswick, Québec et Ontario. L'Ontario compte également un certain nombre de municipalités régionales, de districts territoriaux, une municipalité de districts et une municipalité métropolitaine, que l'on considère tous comme comtés dans cette publication. Au Québec, le Territoire du Nouveau-Québec est l'équivalent d'un comté. Sont aussi au rang des comtés les divisions de recensement à Terre-Neuve et dans les provinces des Prairies, ainsi que les districts régionaux de la Colombie-Britannique.

## (b) Economic Regions

These regions have been established to meet needs for data for larger and more relevant areas than counties but smaller than provinces. Except for Quebec and Ontario economic regions are combinations of counties grouped together to provide a meaningful regional aggregation for analysis and planning. In Quebec, the regions are the 10 administrative regions established by the provincial government and these do not always respect county boundaries. In Ontario, starting with 1974 data, the economic regions are the same as the five planning regions established by the provincial government. These new regions are similar to the regions previously used in the case of northern Ontario in the past but are quite different in the south. These planning regions respect county boundaries except for (i) the southern part of Nipissing District and (ii) the northern part of Kenora District, where the district lies in two planning regions.

## (c) Municipalities

Municipal organization is not uniform across Canada, but varies from province to province. Many of these local government units are highly organized such as incorporated cities but others are not, such as the local improvement districts in the Prairie provinces. Data for the following types of municipalities were collected and will appear in this report if publishable.

BOR.	borough
C.	city
D.M.	district municipality
H.D.	health district
I.D.	improvement district
I.R.	indian reserves
I.S.	indian settlements
L.G.C.	local government community
L.G.D.	local government district
L.I.D.	local improvement district
M.	municipality without designation
M.C.	municipal county
M.D.	municipal district
N.P.	national park
PAR.	parish
R.D.	rural district
R.M.	rural municipality
R.T.	rural town
S.A.	special area
T.	town
TWP.	township
U.E.A.	university endowment area
UNORG.	unorganized
U.S.	unincorporated settlement
VL.	village

## b) Régions économiques

On a créé ces régions pour répondre aux besoins en données concernant des secteurs plus grands et plus pertinents que les comtés, mais plus petits que les provinces. Sauf pour le Québec et l'Ontario, les régions économiques sont des regroupements de comtés qui constituent une agrégation régionale utile à des fins d'analyse et de planification. Au Québec, les régions sont les 10 régions administratives créées par l'administration provinciale et elles en respectent pas toujours les limites de comté. En Ontario, depuis 1974, les régions économiques sont les mêmes que les cinq régions de planification établies par l'administration provinciale. Ces nouvelles régions sont semblables à celles qui étaient utilisées antérieurement dans le nord de l'Ontario, mais elles sont assez différentes dans le sud. Ces régions de planification respectent les limites de comté sauf pour (i) la partie sud du district de Nipissing et (ii) la partie nord du district de Kenora, où le district empiète sur deux régions de planification.

## c) Municipalités

L'organisation des municipalités n'est pas uniforme dans tout le Canada, mais elle varie d'une province à l'autre. Bon nombre de ces unités d'administration locale sont hautement organisées (c'est le cas par exemple des cités constituées), tandis que d'autres ne le sont pas (par exemple les districts d'amélioration locale dans les provinces des Prairies). Les données sont recueillies pour les genres de municipalités suivantes et paraîtront dans la présente publication si la chose est possible.

A.S.	aire spécial
BOR.	borough
C.	cité
C.A.L.	centre d'administration locale
C.I.	colonies indiennes
C.M.	comté municipal
CT.	canton
D.A.	district d'amélioration
D.A.L.	district d'amélioration locale
D.G.L.	district de gouvernement local
D.M.	district municipal
D.R.	district rural
D.S.	district sanitaire
D.U.	domaine de l'université
H.N.I.	hameau non incorporé
M.	municipalité sans désignation
M.D.	municipalité de district
M.R.	municipalité rurale
N.O.	non organisé
PAR.	paroisse
P.N.	parc national
R.I.	réserves indiennes
V.	ville
VL.	village
V.R.	ville rurale

#### (d) Census Metropolitan Areas

These geo-statistical areas are designed by Statistics Canada to identify a large (a population greater than 100,000) and interrelated socio-economic community, typically including a number of municipalities. The boundaries used in 1971 for the 22 CMA's are identical to those used for the 1971 Census of Population. However, for subsequent years these boundaries may have changed, reflecting any amalgamations which occurred involving component and non-component municipalities of a CMA.

#### (e) Census Agglomerations

These geo-statistical areas are designed by Statistics Canada to identify an urbanized area which is smaller than a Census Metropolitan Area but also forming an interrelated socio-economic community, typically including a number of municipalities.

#### Other Available Data

From time to time, occasional publications are produced that are valuable to the user of spatially-oriented manufacturing statistics. For example, regional information on foreign ownership of manufacturing in Canada is available in the occasional publication: *Domestic and Foreign Control of Manufacturing Establishments in Canada, 1972*, Catalogue 31-401.

For further information about any of the publications mentioned, or to determine the feasibility of meeting specific requests and whether charges would be involved, please direct inquiries to:

Regional Statistics Section,  
Manufacturing and Primary Industries  
Division,  
Statistics Canada,  
Ottawa K1A 0T6  
Telephone: (613) 996-4991

#### d) Régions métropolitaines de recensement

Statistique Canada a créé ces secteurs géostatistiques pour désigner une vaste collectivité (de plus de 100,000 habitants) socio-économique interdépendante, comprenant généralement un certain nombre de municipalités. Les limites retenues en 1971 pour les 22 régions métropolitaines de recensement sont identiques à celles utilisées lors du recensement de la population de 1971. Pour les années subséquentes, par ailleurs, ces limites peuvent avoir changé par suite de fusions impliquant des municipalités composantes et non composantes d'une R.M.R.

#### e) Agglomérations de recensement

Statistique Canada a créé ces régions géostatistiques pour désigner les régions urbaines moins grandes qu'une région métropolitaine de recensement mais n'en constituant pas moins une communauté socio-économique interdépendante comprenant généralement un certain nombre de municipalités.

#### Autres données disponibles

De temps à autre, paraissent des publications hors série qui sont d'une grande utilité pour l'utilisateur de statistiques manufacturières axées sur la dimension spatiale. Par exemple des renseignements régionaux sur la propriété étrangère dans l'industrie manufacturière au Canada sont disponibles dans la publication hors série: *Le contrôle national et étranger des établissements manufacturiers au Canada, 1972*, n° 31-401 au catalogue.

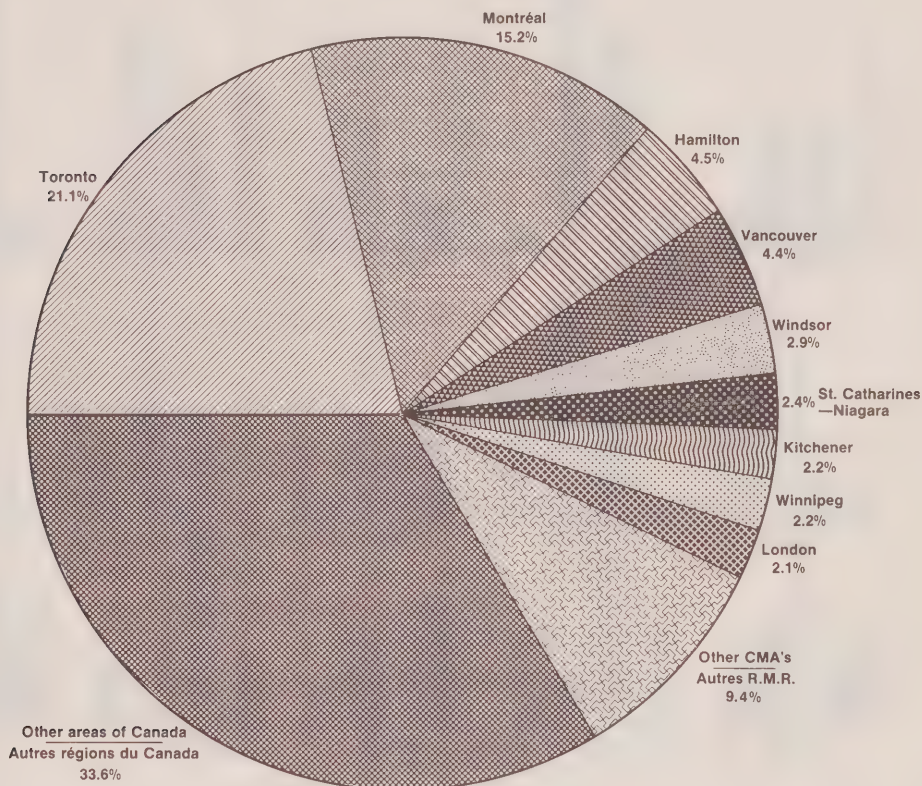

Pour de plus amples renseignements au sujet de l'une ou l'autre des publications mentionnées ci-dessus, ou encore pour connaître la possibilité d'obtenir des données particulières et le prix de telles totalisations spéciales, on voudra bien s'adresser à la:

APPENDIX – II – APPENDICE

**1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION  
(MANUFACTURING INDUSTRIES)**

**RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES  
(INDUSTRIES MANUFACTURIÈRES)**

S.I.C. Code	Industry group and industry	Code de la C.A.E.	Groupe d'industries et industrie
	<b>1 – FOOD AND BEVERAGE INDUSTRIES</b>		<b>1 – INDUSTRIE DES ALIMENTS ET BOISSONS</b>
101	Meat and poultry products industries	101	Industrie de la viande et de la volaille
1011	Slaughtering and meat processors	1011	Abattage et conditionnement de la viande
1012	Poultry processors	1012	Conditionnement de la volaille
102	Fish products industry	102	Industrie de la transformation du poisson
103	Fruit and vegetable processing industries	103	Préparation de fruits et de légumes
1031	Fruit and vegetable canners and preservers	1031	Conserveries de fruits et de légumes
1032	Frozen fruit and vegetable processors	1032	Préparation de fruits et de légumes congelés
104	Dairy products industry	104	Industrie laitière
105	Flour and breakfast cereal products industry	105	Meunerie et fabrication de céréales de table
106	Feed industry	106	Fabrication d'aliments pour les animaux
107	Bakery products industries	107	Boulangerie et pâtisserie (fabrication)
1071	Biscuit manufacturers	1071	Fabricants de biscuits
1072	Bakeries	1072	Boulangeries
108	Miscellaneous food industries	108	Industries alimentaires diverses
1081	Confectionery manufacturers	1081	Fabricants de confiserie
1082	Cane and beet sugar processors	1082	Traitement du sucre de canne et de betteraves
1083	Vegetable oil mills	1083	Moulins à huile végétale
1089	Miscellaneous food processors, n.e.s.	1089	Traitement de produits alimentaires divers, n.c.a.
109	Beverage industries	109	Industrie des boissons
1091	Soft drink manufacturers	1091	Fabricants de boissons gazeuses
1092	Distilleries	1092	Distilleries
1093	Breweries	1093	Brasseries
1094	Wineries	1094	Producteurs de vin
	<b>2 – TOBACCO PRODUCTS INDUSTRIES</b>		<b>2 – INDUSTRIE DU TABAC</b>
151	Leaf tobacco processors	151	Traitement du tabac en feuilles
153	Tobacco products manufacturers	153	Fabricants de produits du tabac
	<b>3 – RUBBER AND PLASTICS PRODUCTS INDUSTRIES</b>		<b>3 – INDUSTRIE DU CAOUTCHOUC ET DES PRODUITS EN MATIÈRE PLASTIQUE</b>
162	Rubber products industries	162	Industrie des produits en caoutchouc
1623	Tire and tube manufacturers	1623	Fabricants de pneus et de chambres à air
1624	Rubber footwear manufacturers	1624	Fabricants de chaussures en caoutchouc
1629	Miscellaneous rubber products manufacturers	1629	Fabricants de produits divers en caoutchouc
165	Plastics fabricating industry, n.e.s.	165	Fabrication d'articles en matière plastique, n.c.a.
	<b>4 – LEATHER INDUSTRIES</b>		<b>4 – INDUSTRIE DU CUIR</b>
172	Leather tanneries	172	Tanneries
174	Shoe factories	174	Fabriques de chaussures
175	Leather glove factories	175	Fabriques de gants en cuir
179	Luggage, handbag and small leather goods manufacturers	179	Fabricants de valises, sacs à main et menus articles en cuir
1792	Boot and shoe findings manufacturers	1792	Fabricants d'accessoires pour bottes et chaussures
1799	Miscellaneous leather products manufacturers	1799	Fabricants d'articles divers en cuir
	<b>5 – TEXTILE INDUSTRIES</b>		<b>5 – INDUSTRIE TEXTILE</b>
181	Cotton yarn and cloth mills	181	Filature et tissage du coton
182	Wool yarn and cloth mills	182	Filature et tissage de la laine
183	Man-made fibre, yarn and cloth mills	183	Fabrication de fibres, filés et tissus artificiels et synthétiques
1831	Fibre and filament yarn manufacturers	1831	Fabricants de filés de fibres et de filaments
1832	Throwsters, spun yarn and cloth mills	1832	Moulinages, filatures et tissages
184	Cordage and twine industry	184	Corderie et ficellerie (fabrication)
185	Felt and fibre processing mills	185	Industrie du feutre et du traitement des fibres
1851	Fibre processing mills	1851	Usines de traitement de fibres
1852	Pressed and punched felt mills	1852	Fabriques de feutre pressé et aéré
186	Carpet, mat and rug industry	186	Industrie des tapis, des carpettes et de la moquette
187	Canvas products and cotton and jute bags industries	187	Industrie des articles en grosse toile et des sacs de coton et de jute
1871	Cotton and jute bags manufacturers	1871	Fabricants de sacs de coton et de jute
1872	Canvas products manufacturers	1872	Fabricants d'articles en grosse toile
188	Automobile fabric accessories industry	188	Industrie des accessoires en tissu pour l'automobile
189	Miscellaneous textile industries	189	Industries textiles diverses
1891	Thread mills	1891	Fabriques de fil
1892	Narrow fabric mills	1892	Rubannerie (fabrication)
1893	Embroidery, pleating and hemstitching manufacturers	1893	Fabricants de broderie, plissage et ourlets à jour
1894	Textile dyeing and finishing plants	1894	Usines de teinture et de finissage de textiles
1899	Miscellaneous textile industries, n.e.s.	1899	Industries textiles diverses, n.c.a.

**1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION  
(MANUFACTURING INDUSTRIES) – Continued**

**RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES  
(INDUSTRIES MANUFACTURIÈRES) – suite**

S.I.C. Code	Industry group and industry	Code de la C.A.E.	Groupe d'industries et industrie
	<b>6 – KNITTING MILLS</b>		<b>6 – BONNETERIE</b>
231	Hosiery mills	231	Industrie des bas et chaussettes
239	Knitting mills (except hosiery mills)	239	Bonnerie (sauf fabrication de bas et chaussettes)
2391	Knitted fabric manufacturers	2391	Fabricants de tissu à mailles
2392	Other knitting mills	2392	Autres fabricants de tricot
	<b>7 – CLOTHING INDUSTRIES</b>		<b>7 – INDUSTRIE DE L'HABILLEMENT</b>
243	Men's clothing industries	243	Industrie des vêtements pour hommes
2431	Men's clothing factories	2431	Usines de confection de vêtements pour hommes
2432	Men's clothing contractors	2432	Confectionneurs à forfait de vêtements pour hommes
244	Women's clothing industries	244	Industrie des vêtements pour dames
2441	Women's clothing factories	2441	Usines de confection de vêtements pour dames
2442	Women's clothing contractors	2442	Confectionneurs à forfait de vêtements pour dames
245	Children's clothing industry	245	Industrie des vêtements pour enfants
246	Fur goods industry	246	Industrie des articles en fourrure
248	Foundation garment industry	248	Industrie des corsets et soutiens-gorge
249	Miscellaneous clothing industries	249	Industries diverses de l'habillement
2491	Fabric glove manufacturers	2491	Fabricants de gants en tissu
2492	Hat and cap industry	2492	Industrie des chapeaux et casquettes
2499	Miscellaneous clothing industries, n.e.s.	2499	Industries diverses du vêtement, n.c.a.
	<b>8 – WOOD INDUSTRIES</b>		<b>8 – INDUSTRIE DU BOIS</b>
251	Sawmills, planing mills and shingle mills	251	Scieries, ateliers de rabotage et usines de bardeaux
2511	Shingle mills	2511	Usines de bardeaux
2513	Sawmills and planing mills	2513	Scieries et ateliers de rabotage
252	Veneer and plywood mills	252	Fabriques de placages et de contre-plaques
254	Sash, door and other millwork plants	254	Industrie des portes, châssis et autres bois ouvrés
2541	Sash, door and other millwork plants, n.e.s.	2541	Fabrication de portes, châssis et autres bois ouvrés, n.c.a.
2542	Hardwood flooring plants	2542	Fabrication de parquets en bois dur
2543	Manufacturers of pre-fabricated buildings (woodframe construction)	2543	Préfabrication de bâtiments (charpentes en bois)
2544	Manufacturers of wooden kitchen cabinets	2544	Fabricants d'armoires de cuisine en bois
256	Wooden box factories	256	Fabriques de boîtes en bois
258	Coffin and casket industry	258	Industrie des cercueils
259	Miscellaneous wood industries	259	Industries diverses du bois
2591	Wood preservation industry	2591	Traitement protecteur du bois
2592	Wood handles and turning industry	2592	Fabrication de manches en bois et tournage sur bois
2593	Manufacturers of particle board	2593	Fabricants de panneaux agglomérés
2599	Miscellaneous wood industries, n.e.s.	2599	Industries diverses du bois, n.c.a.
	<b>9 – FURNITURE AND FIXTURE INDUSTRIES</b>		<b>9 – INDUSTRIE DU MEUBLE ET DES ARTICLES D'AMEUBLEMENT</b>
261	Household furniture manufacturers	261	Industrie des meubles de maison
2611	Furniture re-upholstery and repair shops	2611	Réfection de rembourrage et réparation de meubles
2619	Household furniture manufacturers, n.e.s.	2619	Industrie des meubles de maison, n.c.a.
264	Office furniture manufacturers	264	Industrie des meubles de bureau
266	Miscellaneous furniture and fixtures manufacturers	266	Industrie des articles d'ameublement divers
268	Electric lamp and shade manufacturers	268	Industrie des lampes électriques et des abat-jour
	<b>10 – PAPER AND ALLIED INDUSTRIES</b>		<b>10 – INDUSTRIE DU PAPIER ET ACTIVITÉS ANNEXES</b>
271	Pulp and paper mills	271	Usines de pâtes et papiers
272	Asphalt roofing manufacturers	272	Fabricants de papier de couverture asphalté
273	Paper box and bag manufacturers	273	Fabricants de boîtes en carton et de sacs en papier
2731	Folding carton and set-up box manufacturers	2731	Fabricants de cartons pliants et de boîtes montées
2732	Corrugated box manufacturers	2732	Fabricants de boîtes en carton ondulé
2733	Paper and plastic bag manufacturers	2733	Fabricants de sacs en papier et en plastique
274	Miscellaneous paper converters	274	Transformations diverses du papier
	<b>11 – PRINTING, PUBLISHING AND ALLIED INDUSTRIES</b>		<b>11 – IMPRIMERIE, ÉDITION ET ACTIVITÉS ANNEXES</b>
286	Commercial printing	286	Imprimerie commerciale
287	Platemaking, typesetting and trade bindery industry	287	Industrie du clichage, de la composition et de la reliure commerciale
288	Publishing only	288	Édition seulement
289	Publishing and printing	289	Édition et impression

**1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION  
(MANUFACTURING INDUSTRIES) — Continued**

**RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES  
(INDUSTRIES MANUFACTURIÈRES) — suite**

S.I.C. Code	Industry group and industry	Code de la C.A.E.	Groupe d'industries et industrie
	<b>12 — PRIMARY METAL INDUSTRIES</b>		<b>12 — PREMIÈRE TRANSFORMATION DES MÉTAUX</b>
291	Iron and steel mills	291	Sidérurgie
292	Steel pipe and tube mills	292	Fabriques de tubes et tuyaux d'acier
294	Iron foundries	294	Fonderies de fer
295	Smelting and refining	295	Fonte et affinage
296	Aluminum rolling, casting and extruding	296	Laminage, moulage et extrusion de l'aluminium
297	Copper and copper alloy rolling, casting and extruding	297	Laminage, moulage et extrusion du cuivre et de ses alliages
298	Metal rolling, casting and extruding, n.e.s.	298	Laminage, moulage et extrusion des métaux, n.c.a.
	<b>13 — METAL FABRICATING INDUSTRIES (EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT INDUSTRIES)</b>		<b>13 — FABRICATION DE PRODUITS EN MÉTAL (SAUF MACHINES ET ÉQUIPEMENT DE TRANSPORT)</b>
301	Boiler and plate works	301	Industrie des chaudières et des plaques
302	Fabricated structural metal industry	302	Fabrication d'éléments de charpente métallique
303	Ornamental and architectural metal industry	303	Industrie des produits métalliques d'architecture et d'ornement
3031	Metal door and window manufacturers	3031	Fabricants de portes et fenêtres métalliques
3039	Ornamental and architectural metal industry, n.e.s.	3039	Fabrication de produits métalliques d'architecture et d'ornement, n.c.a.
304	Metal stamping, pressing and coating industry	304	Industrie de l'emboutissage, du matriçage et du revêtement des métaux
3041	Metal coating industry	3041	Industrie du revêtement des métaux
3042	Metal stamping and pressing industry	3042	Industrie de l'emboutissage et du matriçage des métaux
305	Wire and wire products manufacturers	305	Industrie du fil métallique et de ses produits
306	Hardware, tool and cutlery manufacturers	306	Fabricants de quincaillerie, d'outillage et de coutellerie
307	Heating equipment manufacturers	307	Fabricants d'appareils de chauffage
308	Machine shops	308	Ateliers d'usinage
309	Miscellaneous metal fabricating industries	309	Fabrication de produits métalliques divers
	<b>14 — MACHINERY INDUSTRIES (EXCEPT ELECTRICAL MACHINERY)</b>		<b>14 — FABRICATION DE MACHINES (SAUF ÉLECTRIQUES)</b>
311	Agricultural implement industry	311	Fabricants d'instruments aratoires
315	Miscellaneous machinery and equipment manufacturers	315	Fabricants de machines et d'équipement divers
316	Commercial refrigeration and air conditioning equipment manufacturers	316	Fabricants d'équipement commercial de réfrigération et de climatisation
318	Office and store machinery manufacturers	318	Fabricants de machines pour le bureau et le commerce
	<b>15 — TRANSPORTATION EQUIPMENT INDUSTRIES</b>		<b>15 — FABRICATION D'ÉQUIPEMENT DE TRANSPORT</b>
321	Aircraft and aircraft parts manufacturers	321	Fabricants d'aéronefs et de pièces
323	Motor vehicle manufacturers	323	Fabricants de véhicules automobiles
324	Truck body and trailer manufacturers	324	Fabricants de carrosseries de camions et remorques
3241	Truck body manufacturers	3241	Fabricants de carrosseries de camions
3242	Non-commercial trailer manufacturers	3242	Fabricants de remorques à usage non commercial
3243	Commercial trailer manufacturers	3243	Fabricants de remorques à usage commercial
325	Motor vehicle parts and accessories manufacturers	325	Fabricants de pièces et accessoires d'automobiles
326	Railroad rolling stock industry	326	Fabricants de matériel ferroviaire roulant
327	Shipbuilding and repair	327	Construction et réparation de navires
328	Boatbuilding and repair	328	Construction et réparation d'embarcations
329	Miscellaneous vehicle manufacturers	329	Fabricants de véhicules divers
	<b>16 — ELECTRICAL PRODUCTS INDUSTRIES</b>		<b>16 — FABRICATION DE PRODUITS ÉLECTRIQUES</b>
331	Manufacturers of small electrical appliances	331	Fabricants de petits appareils électriques
332	Manufacturers of major appliances (electric and non-electric)	332	Fabricants de gros appareils (électriques ou non)
333	Manufacturers of lighting fixtures	333	Fabricants d'appareils d'éclairage
334	Manufacturers of household radio and television receivers	334	Fabricants de radiorécepteurs et de téléviseurs ménagers
335	Communications equipment manufacturers	335	Fabricants d'équipement de télécommunication
336	Manufacturers of electrical industrial equipment	336	Fabricants d'équipement électrique industriel
338	Manufacturers of electric wire and cable	338	Fabricants de fils et de câbles électriques
339	Manufacturers of miscellaneous electrical products	339	Fabricants de produits électriques divers
3391	Battery manufacturers	3391	Fabricants d'accumulateurs
3399	Manufacturers of miscellaneous electrical products, n.e.s.	3399	Fabricants de produits électriques divers, n.c.a.

3996	Pen and pencil manufacturers	3996	Fabricants de stylos et de crayons
3997	Typewriter supplies manufacturers	3997	Fabricants de fournitures pour la dactylographie
3998	Fur dressing and dyeing	3998	Apprêtage et teinture de fourrure
3999	Other miscellaneous manufacturing industries	3999	Autres industries manufacturières diverses

## EXPLANATORY NOTES

The following abbreviated notes deal only with salient points or selected inclusions or exclusions which might not be self-evident. Detailed "Concepts and Definitions" are available on request; see "Notes to Users".

**Establishment** – Smallest operating unit capable of reporting certain specified input and output data; usually a plant or mill.

### Large Establishments

**Cost of materials and supplies, fuel and electricity** – Generally, consumption of purchased items only, at laid-down cost. Includes inter-company and intracompany transfers, contract work by others, fuel used by vehicles.

**Value of shipments of goods of own manufacture** – Goods made by reporting establishment, or for its account, from its own materials, net of discounts, returns, allowances, sales tax, excise taxes and duties, returnable containers, common or contract carriers' charges for outward transportation (but not of own carriers' delivery expense). Includes repair and custom revenue, transfers to reporting units of same firm, all exports, book value of own products shipped on rental basis. Unsold domestic consignment shipments are included in inventory. In reports on the fabricated structural metal industry, aircraft and aircraft parts manufacturers, railroad rolling stock industry and shipbuilding and repair, value of production is shown for these industries. Integrated smelters' work on own ore is valued at imputed charge to mine.

**Value added** – Net output as measured by gross output less purchased commodity inputs used and contract work by others.

(a) Value added, manufacturing activity: Value of shipments of goods of own manufacture plus net change in inventory of goods in process and finished goods, less cost of materials and supplies used, fuel and electricity.

(b) Value added, total activity: Consists of (1) value added, manufacturing activity and (2) value added, non-manufacturing activity. The latter is calculated by subtracting relevant commodity inputs from non-manufacturing revenues or outputs; these commodity inputs are net of the change in inventories of goods purchased for resale. Non-manufacturing revenues include depreciable fixed assets produced by own work force for own use, revenue from product rentals, etc., but exclude non-operating revenue such as real property rentals, dividends, interest.

**Employees, salaries and wages** – Salaries and wages are reported before deductions for income tax and employee benefits and comprise all man-hours paid (for regular work, overtime and paid leave) as well as bonuses, commissions, etc., paid to regular employees. Where shown, production and related workers classified to non-manufacturing activity include separately reported loggers, employees on construction for own use; beginning with the 1970 Census outside pieceworkers formerly included for certain industries are excluded from all employment totals and their remuneration treated as contract work done by others. Sales and distribution employees include all personnel charged to selling expense, certain drivers, etc.

**Inventories** – Book value of owned inventory held in Canada, including goods in transit and on consignment.

### Small Establishments

For establishments filing "short forms", beginning with 1970 data, "cost of materials, supplies and services" includes all purchased services and fuel and electricity; and "total revenue excluding interest and dividends received" is used for both shipments of goods of own manufacture and gross output, total activity. Value added is calculated using these figures and net change in total inventory, and is thus identical for manufacturing and total activity. Numbers of employees are imputed from reported salaries and wages.

**Head offices, sales offices and auxiliary units** – Included in the individual industry of the company's largest activity. (The allocation of some such units to the major industry group level was discontinued with the 1970 data).

## NOTES EXPLICATIVES

Les notes succinctes ci-après s'arrêtent uniquement aux points saillants et à certaines extensions ou restrictions pouvant nécessiter une explication. Sur simple demande, on pourra obtenir les "Concepts et définitions" détaillés; se reporter aux "Notes au lecteur".

**Établissement** – Plus petite unité exploitante en mesure de fournir certaines données sur ses facteurs de production (entrées) et sur sa production (sorties); en général: usine ou fabrique.

### Grands établissements

**Coût des matières et fournitures, du combustible et de l'électricité** – De manière générale, concerne uniquement la consommation de produits achetés, au prix franco. Comprend les transferts entre filiales et établissements d'une société, les travaux exécutés par d'autres aux termes d'un contrat et la consommation de carburant, par les véhicules.

**Valeur des livraisons de produits de propre fabrication** – Concerne les produits fabriqués par l'établissement enquêté, ou pour son compte, à partir de matières lui appartenant, déduction faite des rabais, des retours de marchandises, des remises, des taxes de ventes, des taxes et des droits d'accise, des emballages consignés, des frais de livraisons payés à des transporteurs publics ou sous contrat (mais non des frais de livraisons de l'établissement même). Comprend les recettes de réparations et de contrats, les transferts à d'autres unités enquêtées de la même firme, les exportations, la valeur comptable des produits donnés en location par l'établissement. Les livraisons sans vente en consignation au Canada sont prises en compte dans les stocks. Dans les publications sur l'industrie de la fabrication d'éléments de charpente métallique, les fabricants d'aéronefs et de pièces, l'industrie de matériel ferroviaire roulant ainsi que l'industrie de la construction et de la réparation de navires, la valeur de la production remplace celle des livraisons; dans la présente publication, on présente la valeur des livraisons pour ces industries. Pour établir la valeur du travail effectué par une fonderie intégrée sur du minéral qui lui appartient, on calcule le coût qu'il faudrait imputer à la mine.

**Valeur ajoutée** – Sortie nette, soit sortie brute moins consommation de biens achetés et travaux exécutés par d'autres sous contrat.

a) Valeur ajoutée, activité manufacturière: valeur des livraisons de produits de propre fabrication, plus variation nette des stocks de produits en cours et de produits finis, moins coût des matières et des fournitures utilisées, du combustible et de l'électricité.

b) Valeur ajoutée, activité totale: comprend (1) la valeur ajoutée par l'activité manufacturière et (2) la valeur ajoutée par l'activité non manufacturière. Cette dernière s'obtient en soustrayant les entrées de marchandises des recettes ou des sorties provenant de l'activité non manufacturière, après avoir soustrait de ces entrées la variation des stocks de produits achetés pour la revente. Les recettes provenant de l'activité non manufacturière comprennent les éléments d'actif amortissable produits par la main-d'œuvre de l'établissement pour son usage propre, les recettes de location de produits, etc., mais non les recettes hors-exploitation, comme les loyers d'immeubles, les dividendes, les intérêts.

**Salariés, traitements et salaires** – Les traitements et salaires sont pris en compte avant les retenues au titre de l'impôt sur le revenu et des avantages sociaux des employés; ils comprennent les heures-hommes payées (heures normales, supplémentaires et congés payés) ainsi que les gratifications, commissions, etc. versées aux salariés. Les travailleurs de la production et assimilés classés dans l'activité non manufacturière comprennent les bûcherons, les ouvriers de la construction pour le compte de l'établissement, etc., lorsqu'ils ont été déclarés séparément; à partir du recensement de 1970, les ouvriers à la pièce de l'extérieur, autrefois classés dans certaines industries, ne sont plus compris dans la statistique de l'emploi et leur rémunération a été prise en compte au titre des travaux sous contrat exécutés par des tiers. Les employés à la vente et à la distribution comprennent tout le personnel imputé aux frais de vente, certains chauffeurs, etc.

**Stocks** – Valeur comptable des stocks détenus en toute propriété au Canada, y compris les marchandises en transit ou en consignation.

### Petits établissements

Pour les établissements qui remplissent une "formule abrégée", "le coût des matières, fournitures et services" comprend, à partir des données de 1970, tous les services achetés et le combustible et l'électricité; et le "total des recettes, sauf sous forme d'intérêts et de dividendes" vaut à la fois pour les livraisons de marchandises de propre fabrication et pour la production brute de l'activité totale. La valeur ajoutée est calculée à partir de ces chiffres et de la variation nette des stocks et est donc identique pour l'activité manufacturière et pour l'activité totale. Le nombre de salariés est déterminé à partir des rémunérations déclarées.

**Sièges sociaux, bureaux de vente et unités auxiliaires** – Classés avec l'industrie qui représente l'activité principale de la société. (Le classement de certaines de ces unités au niveau des groupes a cessé à partir des données de 1970.)

Winnipeg	(949-4020)
Regina	(569-5405)
Edmonton	(425-5052)
Vancouver	(666-3695)

Toll-free access to the regional statistical information service is provided in Charlottetown, Fredericton, Moncton, Saint John and Sydney by calling the operator and asking for ZENITH 22066. Throughout Saskatchewan, the Regina office can be reached by dialing 1-800-667-3524, and throughout Alberta, the Edmonton office can be reached by dialing 1-800-222-6400.

## Nota

On peut se procurer cette publication, ainsi que toutes les publications du gouvernement du Canada, auprès des agents autorisés locaux, dans les librairies ordinaires ou par la poste.

Les commandes par la poste devront parvenir à Distribution des publications, Statistique Canada, Ottawa, K1A 0T6, ou à Imprimerie et édition, Approvisionnements et services Canada, Ottawa, K1A 0S9.

Toutes demandes de renseignements sur la présente publication doivent être adressées à:

Sous-section de la statistique régionale,  
Division des industries manufacturières et primaires,

Statistique Canada, Ottawa, K1A 0T6 (téléphone: 992-9654) ou à un bureau local de la Division de l'assistance-utilisateurs situé aux endroits suivants:

St. John's (T. - N.)	(726-0713)
Halifax	(426-5331)
Montréal	(283-5725)
Ottawa	(992-4734)
Toronto	(966-6586)
Winnipeg	(949-4020)
Regina	(569-5405)
Edmonton	(425-5052)
Vancouver	(666-3695)

On peut obtenir une communication gratuite avec le service régional d'information statistique de Charlottetown, Fredericton, Moncton, de Saint John et de Sydney en demandant à la téléphoniste le numéro ZENITH 22066. En Saskatchewan, on peut communiquer avec le bureau régional de Regina en composant 1-800-667-3524, et en Alberta, avec le bureau d'Edmonton au numéro 1-800-222-6400.

# Introduction

## General

The main tables of this report present the principal statistics compiled at one or more of three levels of aggregation (all industry, major industry group or industry) for economic regions, Census Metropolitan Areas (CMA's), selected Census Agglomerations (CA's), specified municipalities and counties. The specified municipalities listed at the all-industry level are those with shipments of goods of own manufacture of \$750,000 or more in 1975 which were publishable in accordance with the provisions of the Statistics Act. Please note that the term "Industry Group" has been replaced by the term "Major Industry Group" or just "Major Group" in this issue.

Appendix I presents in tabular format, the number of establishments by employment size range for about one half of the municipalities in Canada which contain manufacturing establishments. This table provides what is in effect a profile of the size of manufacturing establishments in any municipality which has three or more establishments.

In order to satisfy the increasingly higher need for more current information at the county level a table containing data for three- and four-digit industries by county has been added to this issue. This data was last shown in the 1971 issue (see Table 2 in this issue and Table 8 in 1971). In addition, the introduction of a new geographical area in 1975 has been arbitrarily defined by the Regional Statistics Unit to incorporate part or all of one or more counties into an area called a "Statistical Area" (for further details see item (a) "Counties" under "Spatial Concepts and Definitions", and also Appendix II) the new areas were constructed in order to overcome the problem of residual disclosure of confidential data which could result from comparisons of metropolitan data with county data. Moreover, there will be no detailed county information in instances where counties and CMA's overlap. For example, Montréal CMA will be shown in detail but the individual counties which comprise the CMA will not be shown.

Principal statistics on the manufacturing industries aggregated at the provincial and Canada levels are published in *Manufacturing Industries of Canada: National and Provincial Areas*, Catalogue 31-203.

# Introduction

## Généralités

Les principaux tableaux de ce bulletin présentent les statistiques de base selon un ou plusieurs des trois niveaux d'agrégation (ensemble des industries, groupe d'industries, industrie) pour les régions économiques, les régions métropolitaines de recensement (RMR), certaines agglomérations de recensement (AR), certaines municipalités et les comtés. Sont énumérées au niveau de l'ensemble des industries les municipalités où les livraisons de produits de propre fabrication s'élèvent à \$750,000 ou plus en 1975 et dont les données peuvent être publiées conformément à la Loi sur la statistique. A noter que les expressions "groupe d'industries" et "groupe" sont employés indifféremment dans cette édition.

L'appendice I présente, sous forme de tableau, le nombre d'établissements selon la taille de l'effectif pour environ la moitié des municipalités du Canada où se trouvent des établissements manufacturiers. Ce tableau fournit ce qui constitue effectivement un profil de la taille des établissements manufacturiers dans toute municipalité comprenant trois établissements ou plus.

Afin de satisfaire à la demande toujours croissante de données actuelles au niveau du comté, cette édition comprend un nouveau tableau qui présente des renseignements sur les industries à trois et quatre chiffres, par comté. Ces données avaient paru pour la dernière fois dans l'édition de 1971 (voir le tableau 2 de la présente publication et le tableau 8 de 1971). En outre, un nouveau concept géographique, le "secteur statistique", a été adopté en 1975 et défini arbitrairement par la Sous-section de la statistique régionale comme englobant un ou plusieurs comtés en tout ou en partie (pour plus de détails, voir le poste a), "Comtés", des concepts et définitions d'ordre géographique, ainsi que l'appendice II). Les nouveaux secteurs ont été formés pour éviter les déductions par recoupements de données confidentielles pouvant résulter de la comparaison de données sur les régions métropolitaines et les comtés. De plus, les données détaillées sur les comtés chevauchant des RMR ne seront pas publiées. Par exemple, les données sur la RMR de Montréal figureront en détail mais l'information sur les différents comtés qui la composent sera omise.

Les statistiques principales sur les industries manufacturières regroupées aux niveaux des provinces et du Canada figurent dans la publication intitulée *Industries manufacturières du Canada: Canada et provinces*, n° 31-203 au catalogue.

## Statistical Highlights (See Text Table I)

The value of total shipments and other revenue reported by manufacturing establishments in Canada in 1975 came to \$102.1 billion, up 7.5% from the 1974 total of \$95.0 billion.

An analysis of this increase by commodity group reveals that the two largest groups, Food and Beverage Industries and Transportation Equipment Industries, recorded gains of 12.7% and 11.6% respectively, while Machinery Industries and the smaller Tobacco Products Industries each recorded the largest percentage gain at 18.1%. The medium-sized Petroleum and Coal Products Industries group was also up strongly with an increase of 14.6%.

Tracing these rises back through the **provincial** figures we see Alberta up 15.7%, Quebec up 13.7% and Ontario up 13.6% in the food and beverage area while Ontario, up 11.2%, and Quebec up 16.3% account for the bulk of activity in transportation equipment manufacture.

Breaking these down further to the level of **economic regions** within each province one can trace the Alberta increase in foods and beverages to the southern cattle-raising areas as the Calgary-Drumheller economic region rose 21.4% and the Lethbridge economic region gained 15.6%. By contrast the large Edmonton-Lloydminster region recorded a predictable gain of 7.7%, Red Deer-Wainwright rose only 4.2% while the Medicine Hat region actually recorded a decrease. Using a similar approach the Quebec increase in food and beverages may be traced to the large Montréal economic region, up 12.6% and the Lower St. Lawrence-Gaspe region up 24.5%. In Ontario the most significant increases for food and beverages were noted in eastern Ontario, up 22.6%, and in the huge Central economic region which was ahead by 11.9%.

Analysing the increases in the Transportation Equipment group, the Ontario increase of 11.2% may be traced to an 11.4% rise in the very large Central economic region as the large Southwestern region fell back 10.4%. Other regions which are confidential also contributed significantly to the increase. In Quebec over 87% of the 1975 shipments were from the Montréal economic region and this region increased by 18.6% to almost fully account for the provincial rise of 16.3%.

The Machinery Industry group increase of 18.1% has to be traced largely to Ontario's increase of 15.6%, as that province accounts for 68% of the national total. However, Manitoba with a 44% increase on 5% of the volume, and Quebec with a 21% rise on 16.5% of the volume also contributed

## Faits saillants (Voir tableau explicatif I)

La valeur des livraisons et des autres recettes déclarées par les établissements manufacturiers au Canada en 1975 a totalisé \$102.1 milliards, soit 7.5 % de plus qu'en 1974 (\$95.0 milliards).

Une analyse de cette hausse par groupe d'industries révèle que les deux groupes principaux, l'industrie des aliments et boissons et la fabrication d'équipement de transport, ont affiché des gains de 12.7 % et 11.6 % respectivement, alors que la fabrication de machines et la petite industrie du tabac enregistraient toutes deux l'augmentation en pourcentage la plus importante, soit 18.1 %. Du côté de l'industrie moyenne, la fabrication de produits du pétrole et du charbon a également beaucoup progressé (14.6 %).

Au niveau **provincial**, on constate des hausses dans l'industrie des aliments et boissons en Alberta (15.7 %), au Québec (13.7 %) et en Ontario (13.6 %), tandis que le gros de la fabrication d'équipement de transport revient à l'Ontario (11.2 %) et au Québec (16.3 %).

En ventilant les chiffres de chaque province au niveau des **régions économiques**, on voit que l'avance de l'industrie des aliments et boissons en Alberta est imputable aux régions d'élevage du sud puisque la région économique de Calgary-Drumheller a progressé de 21.4 % et celle de Lethbridge, de 15.6 %. En comparaison, la grande région d'Edmonton-Lloydminster a enregistré un gain prévisible de 7.7 %, Red Deer-Wainwright a augmenté de 4.2 % seulement alors que la région de Medicine Hat a en fait accusé un recul. La même méthode permet d'expliquer la hausse de l'industrie des aliments et boissons au Québec par les gains de la grande région économique de Montréal (12.6 %) et du Bas-Saint-Laurent-Gaspésie (24.5 %). En Ontario, les augmentations les plus importantes pour les aliments et boissons ont été relevées dans l'est de l'Ontario (22.6 %) et dans la grande région du centre de l'Ontario (11.9 %).

Si l'on analyse les augmentations pour le groupe de la fabrication d'équipement de transport, on constate que l'Ontario a progressé de 11.2 % grâce à la très grande région économique du Centre (11.4 %) puisqu'un recul de 10.4 % a été observé dans l'importante région du Sud-Ouest. D'autres régions (données confidentielles) ont également contribué de façon sensible à la hausse. Au Québec, plus de 87 % des livraisons en 1975 provenaient de la région économique de Montréal dont l'augmentation de 18.6 % intervient pour la presque totalité de l'avance provinciale de 16.3 %.

L'accroissement de 18.1 % dans le groupe de fabrication de machines découle essentiellement de la hausse de 15.6 % en Ontario puisque 68 % du total national revient à cette province. Toutefois, le Manitoba avec une montée de 44 % pour 5 % du volume national et le Québec avec 21 % de plus pour 16.5 % du volume ont également contribué dans une

heavily to the national increase. Within Ontario the increase is largely attributable to a 20.1% increase in the large Central region. In Manitoba the activity and hence the increase is virtually all within the Winnipeg region, while in Quebec the same situation applies with respect to the Montréal region.

The 18.1% rise in Tobacco products reflects a 19.9% increase in Ontario plus a 16.0% increase in Quebec. All the Nation's shipments emanate from these two provinces. All figures were confidential at the sub-provincial level so no analysis by economic region is possible.

The 14.6% increase in Petroleum and Coal Products Industries reflects a 14.6% increase in Ontario which had 28.7% of the national volume; a 49.9% increase in Alberta with 11.5% of the national volume and a 31.8% increase in British Columbia with 9.2% of the national volume. These increases were partly offset by a 6.1% decrease in Nova Scotia which had 7.1% of the national volume.

In Ontario the Southwestern region which accounts for 52.6% of the provincial total for this group rose 10.0% while the other economic regions were confidential. In Alberta the Edmonton-Lloydminster region accounted for 85.9% of the provincial total in 1975, and it recorded a rise of 71.5%. The other regions, while not publishable, did in total record a significant decrease. In British Columbia only the Lower Mainland economic region was publishable and it recorded a 29.7% increase while accounting for 82.6% of the total provincial activity in the Petroleum and Coal Products Industry group.

On a provincial basis percentage increases greater than 10% were recorded by the Yukon and Northwest Territories, up 47.5%; Alberta, up 23.4%; Prince Edward Island, up 15.2%; Manitoba, up 13.1%; Saskatchewan, up 12.6%; and Nova Scotia, up 11.2%. Declines in total shipments were recorded by Newfoundland down 5.1%; and British Columbia, down 1.5%.

Analysing these provincial changes on a commodity basis it is noted that the Territories increase was partly attributable to a 78.3% increase in foods and beverages, while most other groups were confidential due to the very small number of establishments involved. The Alberta increase was most pronounced for electrical products, up 86.1%; petroleum and coal, up 49.9%; and textiles, up 48.0%. Prince Edward Island's increase has to be traced to a 14.7% rise in the food and beverage industries since this group accounts for about 80% of all shipments in that province.

large mesure à l'augmentation pour le pays. En Ontario, l'avance est largement attribuable au gain de 20.1 % de la grande région du Centre. Au Manitoba, pratiquement toute l'activité et, partant l'augmentation, se concentre dans la région de Winnipeg alors qu'au Québec, la même situation s'applique à la région de Montréal.

L'augmentation de 18.1 % dans l'industrie du tabac reflète une croissance de 19.9 % en Ontario et de 16.0 % au Québec. Toutes les livraisons du pays provenaient de ces deux provinces. Tous les chiffres au niveau infraprovincial sont confidentiels rendant impossible l'analyse par région économique.

La progression de 14.6 % observée dans la fabrication de produits du pétrole et du charbon résulte des gains de l'Ontario (14.6 % pour 28.7 % du volume national), de l'Alberta (49.9 % pour 11.5 % du volume national) et de la Colombie-Britannique (31.8 % pour 9.2 % du volume national). Ces augmentations ont été atténuées par une baisse de 6.1 % en Nouvelle-Écosse qui intervient pour 7.1 % du volume national.

En Ontario, la région du Sud-Ouest, qui compte pour 52.6 % du total provincial pour ce groupe, a progressé de 10.0 % alors que les chiffres des autres régions économiques demeuraient confidentiels. En Alberta, la région d'Edmonton-Lloydminster est intervenue pour 85.9 % du total provincial en 1975 et a enregistré un bond de 71.5 %. Les résultats des autres régions ne peuvent être publiés mais reflètent dans l'ensemble une diminution importante. En Colombie-Britannique, seules les données pour la région économique du Lower Mainland sont publiables et correspondent à une hausse de 29.7 % avec 82.6 % de l'activité provinciale totale de la fabrication de produits du pétrole et du charbon.

Au niveau des provinces, des augmentations en pourcentage dépassant 10 % ont été enregistrées au Yukon et dans les Territoires du Nord-Ouest (47.5 %), en Alberta (23.4 %), à l'Île-du-Prince-Édouard (15.2 %), au Manitoba (13.1 %), en Saskatchewan (12.6 %) et en Nouvelle-Écosse (11.2 %). Les livraisons totales ont diminué de 5.1 % à Terre-Neuve et de 1.5 % en Colombie-Britannique.

Une analyse de ces variations provinciales par produit permet de constater que la hausse des Territoires est attribuable en partie à l'avance de 78.3 % de l'industrie des aliments et boissons, alors que les autres groupes demeurent pour la plupart confidentiels en raison du nombre très restreint d'établissements. En Alberta, les augmentations les plus marquées se retrouvent dans la fabrication de produits électriques (86.1 %), de produits du pétrole et du charbon (49.9 %) et dans l'industrie textile (48.0 %). La hausse à l'Île-du-Prince-Édouard découle de la croissance de 14.7 % de l'industrie des aliments et boissons puisque ce groupe intervient pour environ 80 % de l'ensemble des livraisons de cette province.

The Manitoba rise was heavily influenced by a 44.2% increase in machinery shipments, a 32.5% rise in miscellaneous manufactures and a 30.6% rise in non-metallic minerals. Saskatchewan's increase resulted from a 34.8% jump in the large petroleum and coal industry group, while electrical products, up 68.3%; and non-metallic minerals up 43.4%, also contributed heavily. The Nova Scotia increase reflects a 37.3% rise in transportation equipment, a 29.5% increase in foods and beverages plus a 26.6% increase in furniture and fixtures.

The decrease in Newfoundland reflects a 39.0% drop in chemicals plus decreases in other industries which are confidential. The drop in British Columbia resulted largely from a 12.3% decline in wood industries shipments and an 8.2% decrease recorded by the paper and allied industries. The smaller textile industry group also contributed with a 15.5% decrease in 1975.

### Methodology and Data Collection

The basic data for this report, as in those for 1970 and subsequent years, have been compiled according to the 1970 revision of the Standard Industrial Classification.<sup>1</sup> A list of the industries included in the census, together with their SIC codes, is published as Appendix III. Readers wishing information on the effect of implementing the 1970 revision on the Standard Industrial Classification are referred to the 1970 issue of *General Review of the Manufacturing Industries of Canada, Volume I*, Catalogue 31-203.

Data are collected by means of three main types of questionnaires mailed to establishments classified to the manufacturing industries: the "long form" sent to large establishments, requesting detailed information on principal statistics and on commodity inputs and outputs, the "short form" sent to small establishments, asking for minimum principal statistics and no commodity detail and the "head office" sent to head offices and ancillary units. Copies of the "General Questionnaire" long form (without detailed manufacturing commodity inputs and outputs which are specific to each industry), of the short form and of the head office questionnaire are reproduced as Appendices A, B and C of the 1975 issue of Catalogue 31-203.

The criteria for differentiating "large" and "small" establishments varies by industry and province (and through time) but, in general, are governed by the objective of minimizing respondent burden without the loss of a significant amount of commodity data.

Les gains au Manitoba s'expliquent surtout par l'augmentation de 44.2 % des livraisons de machines, de 32.5 % des livraisons des industries manufacturières diverses et de 30.6 % de celles de produits minéraux non métalliques. La hausse en Saskatchewan résulte d'un bond de 34.8 % dans le groupe important de la fabrication de produits du pétrole et du charbon et des avances de 68.3 % et 43.4 % au niveau de la fabrication de produits électriques et de produits minéraux non métalliques. La Nouvelle-Écosse a progressé grâce à une augmentation de 37.3 % dans l'équipement de transport, de 29.5 % dans les aliments et boissons et de 26.6 % dans le meuble et les articles d'ameublement.

La diminution à Terre-Neuve découle du recul de 39.0 % de l'industrie chimique et des baisses (confidentielles) chez d'autres industries. En Colombie-Britannique, les baisses de 12.3 % dans l'industrie du bois et de 8.2 % dans l'industrie du papier et activités annexes, jointes à la diminution de 15.5 % dans la petite industrie textile, ont entraîné un recul au niveau provincial en 1975.

### Méthodologie et collecte des données

Les données de base du présent bulletin ainsi que celles de 1970 et des années suivantes ont été compilées d'après la version révisée de 1970 de la Classification des activités économiques<sup>1</sup>. L'appendice III renferme la liste des industries recensées ainsi que leurs codes de la CAÉ. Pour plus de renseignements sur les répercussions qu'a entraînées l'application de la nouvelle Classification des activités économiques, le lecteur est prié de consulter l'édition de 1970 de la publication intitulée *Industries manufacturières du Canada: Revue générale, Canada et provinces*, n° 31-203 au catalogue.

La collecte des données se fait au moyen de trois types de questionnaire qui sont envoyés par la poste aux établissements classés parmi les industries manufacturières: le "questionnaire complet" envoyé aux grands établissements afin de recueillir des renseignements détaillés sur les statistiques principales et les entrées et sorties de marchandises; le "questionnaire abrégé" envoyé aux petits établissements dans le but d'obtenir quelques statistiques principales sans s'attacher aux détails sur les marchandises; et le "questionnaire du siège social" envoyé aux sièges sociaux et aux unités auxiliaires. On trouvera respectivement aux annexes A, B et C de l'édition de 1975 de la publication n° 31-203 au catalogue, un exemplaire du questionnaire complet (sans les détails relatifs aux entrées et sorties de marchandises, qui sont particuliers à chaque industrie), du questionnaire abrégé et du questionnaire du siège social.

Les critères servant à distinguer les grands des petits établissements varient selon l'industrie et la province (et aussi dans le temps); toutefois, ils ont pour tâche commune de réduire le plus possible le fardeau des répondants sans pour autant perdre un volume important de données sur les marchandises.

<sup>1</sup> Statistique Canada: *Classification des activités économiques, révisée, 1970*, n° 12-501F au catalogue.

Data published herein are based on the Census of Manufactures survey which covers all establishments classified to the manufacturing sector according to the SIC.

## Concepts and Definitions

An abbreviated version of the major concepts and definitions used in the Census of Manufactures is printed as "Explanatory Notes" of this report. Copies of the detailed concepts and definitions are available on request from the Regional Statistics Unit, Manufacturing and Primary Industries Division, Ottawa, Ontario, K1A 0T6, or by ordering *Concepts and Definitions of the Census of Manufactures*, Catalogue 31-528.

## Effects of "Short Forms" on Interregional and Historical Comparisons

One of the more significant changes in recent years was the introduction in 1970 of a considerably simplified "short form" for small establishments, which is briefly described under "small establishments" in the "Explanatory Notes". Changes introduced at that time affect virtually all items of principal statistics for small establishments and are most noticeable in industries, provinces or other groupings of data where small establishments account for a significant proportion of principal statistics.

A rather detailed discussion of some of the changes to the "short form" in 1970 are contained in "Census of Manufactures, Technical Paper No. 1, Revision of the Short Form and Change in Fiscal Years Accepted Beginning with the 1970 Census of Manufactures", available from the same address noted under "Concepts and Definitions".

The following are some consequences of the revised "short form" for the interpretation of data in this report or comparison with similar data for years before 1970.

### (a) Effect of Small Establishment Reporting on Fuel and Electricity

As indicated in the "Explanatory Notes", information on the cost of fuel and electricity is not collected separately for small establishments but is included in "cost of materials and supplies", beginning with 1970. Although this does not affect the calculation of "value added", it does understate the value of fuel and electricity, especially in those industries and provinces where small establishments account for a significant proportion of the value of manufacturing shipments. In fact, 'nil' entries may appear in the column for "Cost of Fuel and Electricity" a some-

Les données publiées ici sont tirées du recensement des manufactures qui englobe tous les établissements classés dans le secteur manufacturier d'après la CAÉ.

## Concepts et définitions

Une version abrégée des principaux concepts et définitions utilisés dans le cadre du recensement des manufactures figure dans les "Notes explicatives" de la publication. On peut en obtenir la version intégrale en s'adressant à la Sous-section de la statistique régionale, Division des industries manufacturières et primaires, Statistique Canada, Ottawa (Ontario), K1A 0T6, ou en commandant la publication *Concepts et définitions du recensement des manufactures*, n° 31-528 au catalogue.

## Répercussions des questionnaires abrégés sur les comparaisons interrégionales et chronologiques

L'une des modifications les plus importantes apportées au cours des dernières années a été l'introduction en 1970 d'un questionnaire abrégé fort simplifié pour les petits établissements. Le questionnaire est décrit brièvement sous la rubrique "petits établissements" dans les "Notes explicatives". La refonte du questionnaire influe sur presque toutes les rubriques des principales statistiques pour les petits établissements; cette influence est plus évidente dans les industries, provinces ou autres groupements de données où les petits établissements interviennent de façon marquée dans les principales statistiques.

Un exposé détaillé de certaines des modifications apportées au questionnaire abrégé en 1970 figure dans le document intitulé "Recensement des manufactures, document technique n° 1, révision de la formule abrégée et modification des années financières acceptées à partir du recensement des manufactures de 1970", on peut s'en procurer un exemplaire à l'adresse mentionnée à la rubrique "Concepts et définitions".

Voici certaines des conséquences de cette révision sur l'interprétation des données présentées ici ou la comparaison avec des données semblables pour les années antérieures à 1970.

### a) Répercussions des déclarations des petits établissements sur les statistiques du combustible et de l'électricité

Comme il est mentionné dans les "Notes explicatives", les renseignements concernant le coût du combustible et de l'électricité ne sont pas recueillis séparément auprès des petits établissements mais sont compris, depuis 1970, dans le coût des matières et fournitures. Bien que cette pratique n'influe pas sur le calcul de la valeur ajoutée, elle entraîne une sous-estimation de la valeur du combustible et de l'électricité dans les industries et les provinces où les petits établissements interviennent pour une part importante de la valeur ajoutée des livraisons des manufacturiers. De fait, les répondants peuvent avoir inscrit "néant" dans

what unrealistic situation in an era of rapidly increasing costs for these items. Readers are cautioned, therefore, in their use of these data.

#### (b) Imputation of Man-hours and Employees for Small Establishments

As indicated in the "Explanatory Notes", beginning with 1970 data, employees in small establishments have been imputed from reported salaries and wages; this also applies to man-hours paid. The following is a brief explanation of the method of imputation for man-hours and employees in small establishments:

- (1) The number of man-hours paid is calculated by dividing the wages and salaries reported by the estimated average hourly earnings for the relevant industry and province.
- (2) The number of man-hours worked is calculated using the appropriate ratio of man-hours worked to man-hours paid.
- (3) The number of employees is calculated using the appropriate average man-hours paid per year. (If the total man-hours paid for an establishment is the equivalent of less than 0.5 employees per year, then no employees are imputed but the man-hours figures are retained for the industry.)
- (4) Total employees are distributed into male and female using relevant ratios. All employees are considered to be production workers engaged in manufacturing activity except in the case of SIC 288, Publishing only, where they are considered to be administrative, office and other non-manufacturing employees.

Although "short form" establishments accounted for 50.0% of the total number of establishments in 1975, their wages and salaries reported were only \$1,022,243,000 or 5.3% of the total wages and salaries reported for all of manufacturing. The number of employees for these establishments, based on the imputation procedures described above, was 132,311 or 7.6% of all employees accounted for in the 1975 Census of Manufactures.

#### (c) Variation in Definition of Value Added

Users comparing data for geographical areas should consider whether varying proportions of data accounted for by small establishments filing the abbreviated "short form" may bias such comparisons, particularly in the case of data involving value added. This will not be a problem for national aggregates nor, for the most part, for provincial totals for industries. The proportion of output accounted for by "short forms" is designedly a small percentage of national totals for all but a few industries and this is usually the case for provincial totals also; however,

la colonne "coût du combustible et de l'électricité", ce qui constitue une situation quelque peu irréaliste en cette période d'augmentation rapide des prix. Ces données sont donc sujettes à caution.

#### b) Imputation des années-homme et des effectifs des petits établissements

Comme il est mentionné dans les "Notes explicatives" à partir de 1970, les effectifs des petits établissements sont imputés à partir des traitements et salaires déclarés; cette règle s'applique également aux heures-homme rémunérées. Voici une brève explication de la méthode utilisée pour imputer les heures-homme et les effectifs des petits établissements:

- (1) Le nombre d'heures-homme est établi en divisant les traitements et salaires déclarés par les gains horaires moyens estimés dans l'industrie ou la province en question.
- (2) Le nombre d'heures-homme travaillées est calculé à l'aide du rapport entre les heures-homme travaillées et les heures-homme rémunérées.
- (3) Le nombre de salariés est établi à partir de la moyenne annuelle des heures-homme rémunérées. (Si le total des heures-homme rémunérées d'un établissement équivaut à moins de 0.5 salarié par année, aucune imputation n'est faite, mais on conservera ce chiffre au niveau de l'industrie.)
- (4) Le nombre total de salariés est réparti selon le sexe à l'aide des rapports appropriés. Tous les salariés sont considérés comme étant des travailleurs de la production participant à l'activité manufacturière, à l'exception de ceux de la classe 288 de la CAÉ "Édition seulement", qui sont des employés administratifs, de bureau et autres non préposés à la fabrication.

Bien que les établissements remplissant une formule abrégée représentaient 50.0 % du nombre total d'établissements en 1975, leurs traitements et salaires déclarés n'ont atteint que \$1,022,243,000 c'est-à-dire 5.3 % de ceux de toute l'activité manufacturière. L'effectif de ces établissements, calculé à partir des méthodes d'imputation présentées ci-dessus, s'est chiffré à 132,311 ou 7.6 % de tous les salariés déclarés au recensement des manufactures de 1975.

#### c) Variation dans la définition de la valeur ajoutée

Les utilisateurs qui comparent les données se rapportant à des secteurs géographiques devraient voir si la variation des proportions que représentent dans les résultats les petits établissements qui remplissent les questionnaires abrégés peut introduire un biais dans ces comparaisons, particulièrement dans le cas des données concernant la valeur ajoutée. Or les agrégats à l'échelle nationale et, pour la plupart, les totaux provinciaux relatifs aux industries ne seront pas touchés. C'est à dessein que la proportion des sorties déclarées sur un questionnaire abrégé représente un faible pourcentage des totaux nationaux pour la presque totalité

for sub-provincial areas very small establishments can account for a large part of particular industry totals.

Value added is calculated by subtracting purchased inputs from gross output. In the case of establishments filing the "long form", the deductions from gross output are the cost of materials and supplies used and the cost of fuel and electricity. In the case of "short form" establishments, however, the only relevant input item collected is a combined total for the cost of materials, supplies and services. Thus value added for "short forms" excludes the cost of services, while for "long form" establishments value added includes the cost of services. The difference is often not trivial for the individual establishment and whether or not a problem is involved for aggregates will depend on the relative proportions of value accounted for by "short forms". In totals where zero use of fuel and electricity is shown, all returns are "short forms", of course; a low relative use of fuel and electricity will in general be suggestive of a high proportion of "short forms" as would very low average establishment size.

### **Confidentiality of Data for Individual Businesses**

Statistics Canada is prohibited by law from publishing any statistics which would divulge information relating to any identifiable business without the previous consent in writing of that business. In practice, this means that, for the Census of Manufactures, no data except for number, type and location of establishments are shown for industrial or geographic aggregations composed of fewer than three companies or of three or more if these are dominated by one or two companies. The names, addresses and employment size codes of establishments classified to individual manufacturing industries are published in the relevant Census of Manufactures industry report.

In order to provide a systematic publication pattern which will prevent indirect (or residual) disclosure of information relating to individual establishments, choices must often be made between the publication or suppression of different levels of industrial or geographic data. Such decisions are made in accordance with an order of precedence designed to provide as detailed data as possible consistent with provisions of the Statistics Act and with requirements for industrial and regional analysis. Thus, for individual industries, Canada is given precedence over provinces. Within provinces or regions, two-digit industry groups are normally given precedence over their component three- and four-digit industries.

des industries et c'est habituellement le cas pour les totaux provinciaux. Au niveau infraprovincial toutefois, de très petits établissements peuvent compter pour une grande partie des totaux d'une industrie en particulier.

La valeur ajoutée s'obtient en soustrayant les facteurs achetés de la production brute. Dans le cas des établissements qui remplissent le questionnaire long, on retranche de la production brute le coût des matières et fournitures utilisées et le coût du combustible et de l'électricité. Quant aux questionnaires abrégés, en revanche, le seul renseignement utile est le coût global des matières, fournitures et services. Ainsi, la valeur ajoutée comprend le coût des services sur les questionnaires long mais non sur les questionnaires abrégés. La différence n'est pas négligeable pour l'établissement individuel et pourra poser un problème pour les agrégats selon les proportions relatives de la valeur ajoutée attribuables aux établissements répondant sur questionnaire abrégé. Lorsque les totaux n'indiquent aucune utilisation du combustible ni de l'électricité, toutes les déclarations sont faites sur un questionnaire abrégé, cela va de soi; une utilisation relativement faible du combustible et de l'électricité, tout comme une taille moyenne d'établissement très faible, caractérisera en général une proportion élevée de ces questionnaires abrégés.

### **Confidentialité des données présentées par les entreprises particulières**

La loi interdit à Statistique Canada de diffuser des données qui pourraient servir à identifier une entreprise, sans avoir obtenu au préalable l'autorisation écrite de cette dernière. Du point de vue pratique, cela signifie qu'aux fins du recensement des manufactures, aucune donnée, à l'exception du nombre, du genre et de l'emplacement des établissements, n'est publiée sur des groupements industriels ou géographiques de moins de trois entreprises ou de trois entreprises ou plus que domine une ou deux sociétés. Le nom, l'adresse et le code de taille d'effectifs de chaque établissement faisant partie des industries manufacturières particulières figurent dans la publication appropriée du recensement des manufactures.

Afin de produire une méthode systématique de publication des données qui empêche la divulgation indirecte (ou par recoupement) de renseignements relatifs aux établissements particuliers, on doit souvent choisir entre la diffusion ou la suppression de divers niveaux de données industrielles ou géographiques. À cette fin, on a conçu un ordre de priorité nous permettant de produire quand même des données très détaillées qui respectent les dispositions de la Loi sur la statistique et les besoins en analyse au niveau de l'industrie ou de la région. Pour ce qui est des industries particulières, les données pour le Canada ont priorité sur celles des provinces. Dans le cas des provinces et des régions, les statistiques des groupes d'industries à deux chiffres passent habituellement avant celles de leurs composantes à trois et quatre chiffres.

For the sub-provincial areas, various factors have to be considered in deciding what data can be published. At the all-industry level, the economic regions and counties (census divisions or regional districts in some provinces) are published; where one of these areas is confidential then a combination of economic regions or counties is made. Next taking into consideration the publishability of economic regions and counties, the CMA's are checked for publishability. If there is a conflict between publishing a CMA and a county, the counties would be recombined to overcome any problems of disclosure of confidential data. Finally, with all the municipalities which did not meet the size criteria stated earlier being considered confidential, the remaining individual municipalities are checked for publishability, taking into consideration the publishability of the economic region, county and CMA totals.

Individual industry and/or major group data are published within a set of guidelines also. If the data are confidential at one level of aggregation any level of aggregation which is lower in preference is treated the same way. Thus if an industry is confidential at the provincial level, it cannot be published at the sub-provincial level, or if it is confidential for the economic region it cannot be published at the CMA or municipality level.

In agreement with all provincial governments the selection of individual industries is made as follows: Canada is given preference over provinces, provinces over CMA's, CMA's over counties, counties over municipalities and municipalities over economic regions.

### **Treatment of Separately Located Head Offices, Sales Offices and Ancillary Units**

It should be noted that head offices, etc., are included in national and provincial industry statistics, but are excluded from all sub-provincial manufacturing data. At the national and provincial level, such units are included in the individual industry of the company's largest activity and the effect on data is very small. At the sub-provincial level, however, the effects of such inclusions are considered serious enough to warrant special treatment. For example, since head offices of large multi-unit firms with Canada-wide operations tend to be located in the large metropolitan areas such as Toronto and Montréal, industry statistics for these centres would be overloaded with expenses relative to revenue and thus would distort inter-city or inter-area comparisons of manufacturing activity.

In order to avoid such distortions, the basic tables on location statistics (economic regions, counties,

Pour les régions infraprovinciales, la diffusion des données repose sur divers facteurs. Au niveau de l'ensemble de l'industrie, les données sur les régions économiques et les comtés (divisions de recensement ou districts régionaux dans certaines provinces) sont publiées; lorsque les données pour un de ces niveaux sont confidentielles, alors on regroupe les régions économiques ou les comtés. Puis, en tenant compte de la possibilité de publier les données des régions économiques et des comtés, on vérifie s'il est possible de publier celles des RMR. S'il existe un conflit entre le fait de publier les chiffres d'une RMR et ceux d'un comté, les comtés seront regroupés en vue d'empêcher la divulgation de données confidentielles. Enfin, vu que l'on considère comme confidentielles les données de toutes les municipalités qui ne répondent pas aux critères de la taille susmentionnés, on vérifie s'il est possible de publier les données des autres municipalités individuelles, prenant en considération la possibilité de publier les totaux des régions économiques, des comtés et des RMR.

La diffusion des données pour une industrie particulière ou un groupe majeure suit également un ensemble de lignes directrices. Si les données sont confidentielles à un niveau de regroupement, tout niveau inférieur est considéré de la même manière. Ainsi, lorsque les données d'une industrie sont confidentielles au niveau provincial, elles ne peuvent pas être publiées au niveau infraprovincial; ou si les données sont confidentielles pour la région économique, elles ne peuvent pas être publiées au niveau de la RMR ou de la municipalité.

En accord avec les administrations publiques de toutes les provinces, les différentes industries sont choisies dans l'ordre suivant: Le Canada avant les provinces, les provinces avant les RMR, les RMR avant les comtés, les comtés avant les municipalités et les municipalités avant les régions économiques.

### **Sièges sociaux, bureaux de vente et unités auxiliaires situés ailleurs**

Il faut remarquer que les sièges sociaux, etc., sont compris dans les statistiques nationales et provinciales, mais exclus de toutes les données infraprovinciales sur les industries manufacturières. Au niveau national et provincial, ces unités sont prises en compte dans l'industrie de la principale activité de l'entreprise et l'effet sur les données est négligeable. Au niveau infraprovincial, toutefois, les incidences de ces inclusions sont considérées comme assez importantes pour motiver un traitement particulier. Par exemple, comme le siège des grandes entreprises à établissements multiples dont les activités s'étendent au Canada tout entier est d'ordinaire situé dans les grandes régions métropolitaines comme Toronto et Montréal, les statistiques industrielles de ces centres feraient ressortir beaucoup trop de dépenses par rapport aux recettes, ce qui fausserait les comparaisons d'activités manufacturières entre villes et entre régions.

Pour éviter cette distorsion, les tableaux de base de statistiques géographiques (régions économiques, comtés, régions

Census Metropolitan Areas, Census Agglomeration Areas, and municipalities) are confined to the principal statistics of establishments excluding separately located head offices and ancillary units. These head offices, as well as establishments showing on their reports employment at other locations, were asked in 1975 to report employment and payrolls, by location, of any auxiliary unit employing five or more persons. These data are then given appropriate geographic codes and tabulated separately along with the main head office and other ancillary units that have submitted separate "head office" reports.

Publishable data on employment and payroll of head offices, sales offices and ancillary units are shown for Census Metropolitan Areas, municipalities and counties in Tables 10, 11 and 12 respectively.

## Spatial Concepts and Definitions

### (a) Counties

Counties are basic political and/or administrative divisions in Prince Edward Island, Nova Scotia, New Brunswick, Quebec and Ontario. In Ontario there also exist a number of regional municipalities, territorial districts and one district municipality and one metropolitan municipality. All of these are in this report treated as counties. In Quebec, New Quebec Territory is treated as a county. In Newfoundland and the Prairie provinces, the census divisions are treated as counties. The regional districts of British Columbia are also treated as counties.

The statistical area is a general term applying to a grouping of counties and/or parts of counties that describe geostatistical areas that have been created by Regional Statistics Unit to encompass a CMA and are identified by the name of the constituent CMA. They contain both whole component and non-component municipalities of the CMA. It should be noted that not all CMA areas will be used as a criteria to build statistical areas. Where a CMA falls entirely within one county, there is no need for a statistical area. However, where a CMA overlaps more than one county, there a statistical area will need to be constructed. In a few cases a county will contain two CMA's or parts of CMA's and have to be split between two statistical areas.

The introduction of statistical areas will eliminate the problem of residual disclosure between metropolitan areas and counties at the major group and industry detail level. Moreover, it is essential to note that the method of constructing statistical areas is very similar to that of combining counties at the all-industry level. That is, by combining the figures of the confidential county with one or more sup-

métropolitaines de recensement, agglomérations de recensement, et municipalités) s'en tiennent aux statistiques principales des établissements, à l'exclusion des sièges sociaux et des services auxiliaires situés ailleurs. Ces sièges sociaux, de même que les établissements qui déclarent avoir des salariés ailleurs, doivent déclarer le nombre de salariés et leur rémunération, selon l'endroit, pour toute unité auxiliaire comptant cinq salariés ou plus. Les déclarations de ces unités sont marquées d'un code géographique approprié et exploitées séparément, en même temps que celles des sièges sociaux et des autres unités auxiliaires qui ont présenté une déclaration distincte de "siège social".

Les données publiables sur les effectifs et rémunérations dans les sièges sociaux, les bureaux de vente et les unités auxiliaires sont présentées pour les régions métropolitaines de recensement, les municipalités et les comtés aux tableaux 10, 11 et 12 respectivement.

## Concepts et définitions d'ordre géographiques

### a) Comtés

Les comtés sont les divisions politiques et/ou administratives de base des provinces suivantes: Île-du-Prince-Édouard, Nouvelle-Écosse, Nouveau-Brunswick, Québec et Ontario. L'Ontario compte également un certain nombre de municipalités régionales, de districts territoriaux, une municipalité de districts et une municipalité métropolitaine, que l'on considère tous comme comtés dans cette publication. Au Québec, le Territoire du Nouveau-Québec est l'équivalent d'un comté. Sont aussi au rang des comtés les divisions de recensement à Terre-Neuve et dans les provinces des Prairies, ainsi que les districts régionaux de la Colombie-Britannique.

Le secteur statistique est une expression générale qui désigne un groupe de comtés ou de parties de comtés correspondant aux unités géostatistiques créées par la Sous-section de la statistique régionale pour englober une RMR et portant le nom de la RMR en question. Sont comprises les municipalités composantes et non composantes de la RMR. À noter que les RMR ne serviront pas toujours à créer des secteurs statistiques. Lorsqu'une RMR ne déborde pas les limites d'un comté, le secteur statistique n'est pas nécessaire. Toutefois, si la RMR chevauche plus d'un comté, il faut construire un secteur statistique. Un comté peut parfois comprendre deux RMR ou parties de RMR et doit alors être divisé en deux secteurs statistiques.

L'introduction de secteurs statistiques permet d'éliminer le problème des déductions par recoupements entre les régions métropolitaines et les comtés au niveau d'agrégation du groupe et de l'industrie. De plus, il faut noter que la méthode de formation des secteurs statistiques est presque semblable à celle qui sert à combiner des comtés au niveau de l'ensemble des industries. Il suffit en effet de regrouper les chiffres d'un comté confidentiel avec ceux d'un ou de

pressed counties the combined counties' total becomes publishable and the confidential figures are protected. However, in the attempt to combine whole counties in the construction of statistical areas certain exceptions are encountered. The problem is similar to that of economic regions, in that, the regions do not always respect county boundaries. In the case of statistical areas, where two or more CMA's are located in one county, that county will then be split up according to which municipalities are components of which CMA. In addition the non-component municipalities will also be added to the adjacent CMA to construct the statistical area in order to provide a meaningful aggregation for statistical purposes. For example, as a result of the construction of the statistical areas of Valleyfield and Montréal, the municipalities in the county of Beauharnois had to be split up between the CMA's of Valleyfield and Montréal. Municipalities which fall within CMA limits are assigned directly to the statistical area involved. Additional municipalities which are not component members of one of the CMA's were arbitrarily allocated to one of the two statistical areas where it was felt to be appropriate in producing a meaningful geostatistical area.

There are 17 statistical areas in Canada of which two are located in New Brunswick, nine in Quebec, five in Ontario and one in British Columbia (see appendix II on Outline of Statistical areas). The principal statistics of statistical areas are shown along with the counties in Table 2 in this publication.

### (b) Economic Regions

These regions have been established to meet needs for data for larger and more relevant areas than counties but smaller than provinces. Except for Quebec and Ontario economic regions are combinations of counties grouped together to provide a meaningful regional aggregation for analysis and planning. In Quebec, the regions are the 10 administrative regions established by the provincial government and these do not always respect county boundaries. In Ontario, starting with 1974 data, the economic regions are the same as the five planning regions established by the provincial government. These regions are similar to the regions previously used in the case of northern Ontario in the past but are quite different in the south. These planning regions respect county boundaries except for (i) the southern part of Nipissing District and (ii) the northern part of Kenora District, where the district lies in two planning regions.

### (c) Municipalities

Municipal organization is not uniform across Canada, but varies from province to province. Many of these local government units are highly organized such as incorporated cities but others are not, such as the local improvement districts in the Prairies prov-

plusieurs comtés supprimés pour arriver à un total publishable qui n'enfreint pas la loi du secret. Toutefois, il n'est pas toujours possible de combiner des comtés entiers pour construire des secteurs statistiques. Le problème est le même que pour les régions économiques; c'est-à-dire que les régions ne respectent pas toujours les limites des comtés. Dans le cas des secteurs statistiques à former à partir d'un comté comprenant deux ou plusieurs RMR, il faut diviser le comté en fonction des différentes municipalités composantes de chaque RMR. Les municipalités non composantes doivent également être comprises dans la RMR adjacente pour que le secteur statistique constitue une agrégation valable à des fins statistiques. Par exemple, au moment de construire les secteurs statistiques de Valleyfield et de Montréal, il a fallu répartir les municipalités du comté de Beauharnois entre les RMR de Valleyfield et de Montréal. Les municipalités à l'intérieur des limites d'une RMR sont attribuées directement au secteur statistique en cause. Quant aux municipalités additionnelles non composantes de l'une ou l'autre des RMR, on les classe arbitrairement à l'un des deux secteurs statistiques dans le but de produire une unité géostatistique valable.

Le Canada compte 17 secteurs statistiques dont deux au Nouveau-Brunswick, neuf au Québec, cinq en Ontario et un en Colombie-Britannique (voir la liste des composantes des secteurs statistiques à l'appendice II). Le tableau 2 de cette publication présente les statistiques principales sur les secteurs statistiques et sur les comtés.

### (b) Régions économiques

On a créé ces régions pour répondre aux besoins en données concernant des secteurs plus grands et plus pertinents que les comtés, mais plus petits que les provinces. Sauf pour le Québec et l'Ontario, les régions économiques sont des regroupements de comtés qui constituent une agrégation régionale utile à des fins d'analyse et de planification. Au Québec, les régions sont les 10 régions administratives créées par l'administration provinciale et elles en respectent pas toujours les limites de comté. En Ontario, depuis 1974, les régions économiques sont les mêmes que les cinq régions de planification établies par l'administration provinciale. Ces régions sont semblables à celles qui étaient utilisées antérieurement dans le nord de l'Ontario, mais elles sont assez différentes dans le sud. Ces régions de planification respectent les limites de comté sauf pour (i) la partie sud du district de Nipissing et (ii) la partie nord du district de Kenora, où le district empiète sur deux régions de planification.

### (c) Municipalités

L'organisation des municipalités n'est pas uniforme dans tout le Canada, mais elle varie d'une province à l'autre. Bon nombre de ces unités d'administration locale sont hautement organisées (c'est le cas par exemple des cités constituées), tandis que d'autres ne le sont pas (par exemple les districts

inces. Data for the following types of municipalities were collected and will appear in this report if publishable.

BOR	borough
C	city
DM	district municipality
HD	health district

VL	village

**(d) Census Metropolitan Areas**

These geostatistical areas are designed by Statistics Canada to identify a large (a population greater than 100,000) and interrelated socio-economic community, typically including a number of municipalities. The boundaries used in 1971 for the 22 CMA's are identical to those used for the 1971 Census of Population. However, for subsequent years these boundaries may have changed, reflecting any amalgamations which occurred involving component and non-component municipalities of a CMA.

**(e) Census Agglomerations**

These geostatistical areas are designed by Statistics Canada to identify an urbanized area which is smaller than a Census Metropolitan Area but also forming an interrelated socio-economic community, typically including a number of municipalities.

**Other Available Data**

From time to time, occasional publications are produced that are valuable to the user of spatially-oriented manufacturing statistics. For example,

d'amélioration locale dans les provinces des Prairies). Les données sont recueillies pour les genres de municipalités suivantes et paraîtront dans la présente publication si la chose est possible.

**d) R gions m tropolitaines de recensement**

Statistique Canada a cr   ces secteurs g ostatistiques pour d signer une vaste collectivit  (de plus de 100,000 habitants) socio- conomique interd pendante, comprenant g n ralement un certain nombre de municipalit s. Les limites retenues en 1971 pour les 22 r gions m tropolitaines de recensement sont identiques   celles utilis es lors du recensement de la population de 1971. Pour les ann es subs quentes, par ailleurs, ces limites peuvent avoir chang  par suite de fusions impliquant des municipalit s composantes et non composantes d'une RMR.

**e) Agglom rations de recensement**

Statistique Canada a cr   ces r gions g ostatistiques pour d signer les r gions urbaines moins grandes qu'une r gion m tropolitaine de recensement mais n'en constituant pas moins une communaut  socio- conomique interd pendante comprenant g n ralement un certain nombre de municipalit s.

**Autres donn es disponibles**

De temps   autre, paraissent des publications hors s rie qui sont d'une grande utilit  pour l'utilisateur de statistiques manufacturi res ax es sur la dimension spatiale. Par exemple

regional information on foreign ownership of manufacturing in Canada is available in the occasional publication: *Domestic and Foreign Control of Manufacturing Establishments in Canada, 1972*, Catalogue 31-401.

For further information about any of the publications mentioned, or to determine the feasibility of meeting specific requests and whether charges would be involved, please direct inquiries to:

Regional Statistics Unit,  
Manufacturing and Primary Industries Division,  
Statistics Canada,  
Ottawa, K1A 0T6  
Telephone: (613) 992-9654.

des renseignements régionaux sur la propriété étrangère dans l'industrie manufacturière au Canada sont disponibles dans la publication hors série: *Le contrôle national et étranger des établissements manufacturiers au Canada, 1972*, n° 31-401 au catalogue.

Pour de plus amples renseignements au sujet de l'une ou l'autre des publications mentionnées ci-dessus, ou encore pour connaître la possibilité d'obtenir des données particulières et le prix de telles totalisations spéciales, on voudra bien s'adresser à la:

Sous-section de statistique régionale  
Division des industries manufacturières et primaires  
Statistique Canada  
Ottawa, K1A 0T6  
Téléphone: (613) 992-9654.

Percentage Distribution of the Value of Shipments of Goods of Own Manufacture,  
Census Metropolitan and Other Areas, Canada, 1975

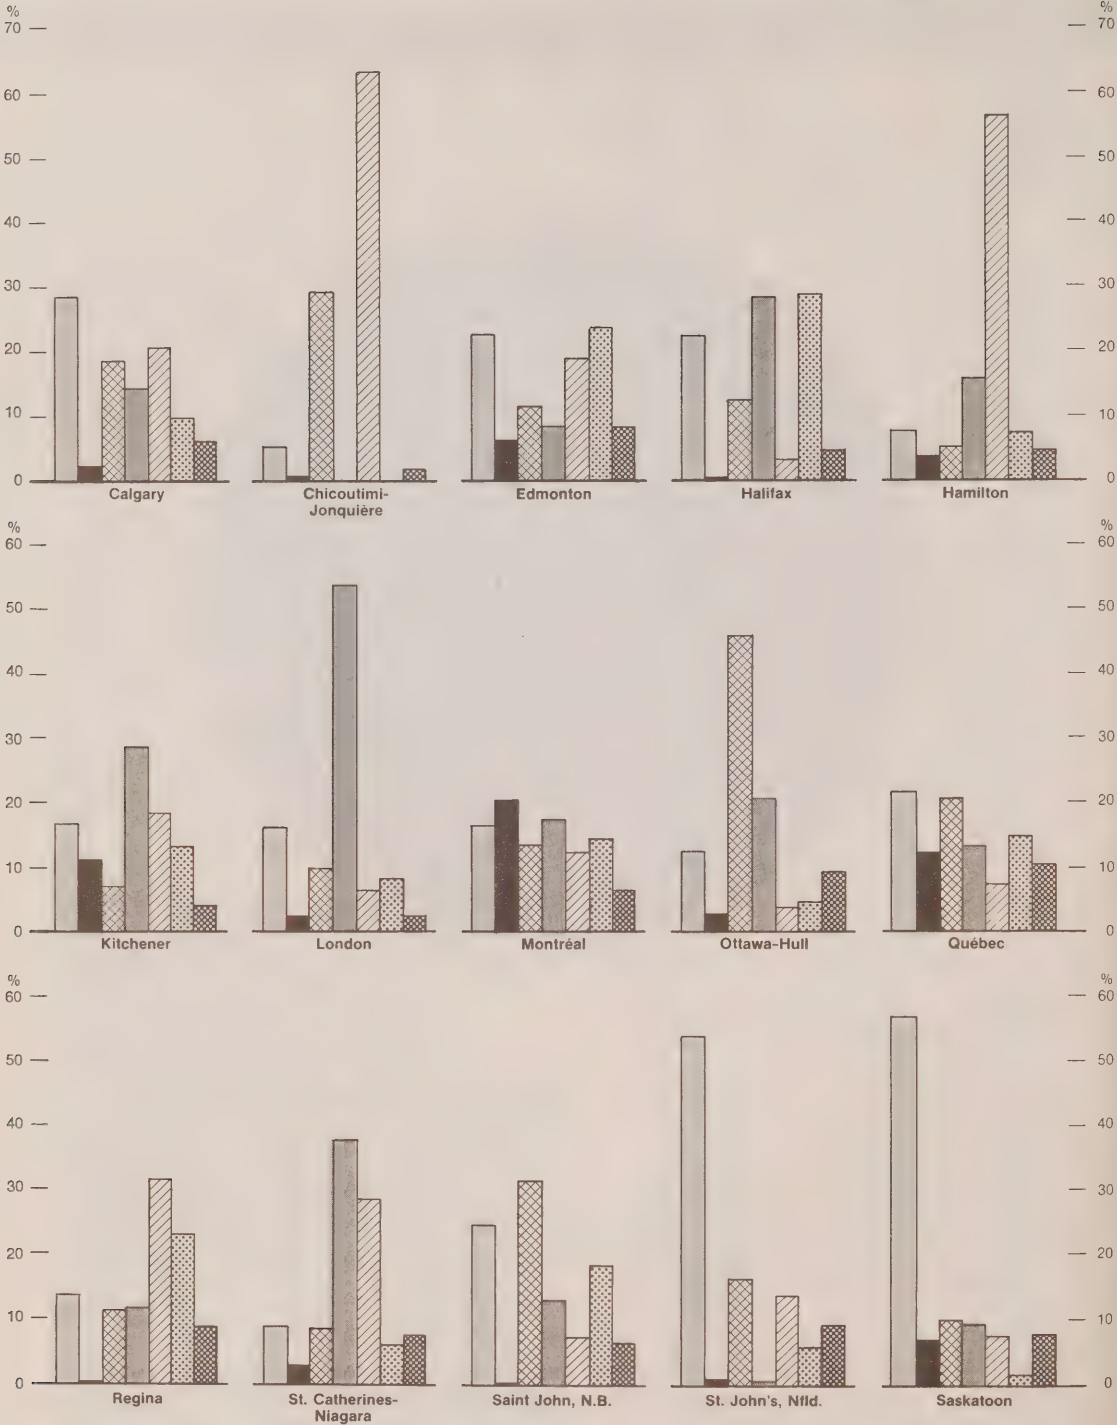

Répartition en pourcentage de la valeur des livraisons de produits de propre fabrication,  
régions métropolitaines de recensement et autres régions, Canada, 1975

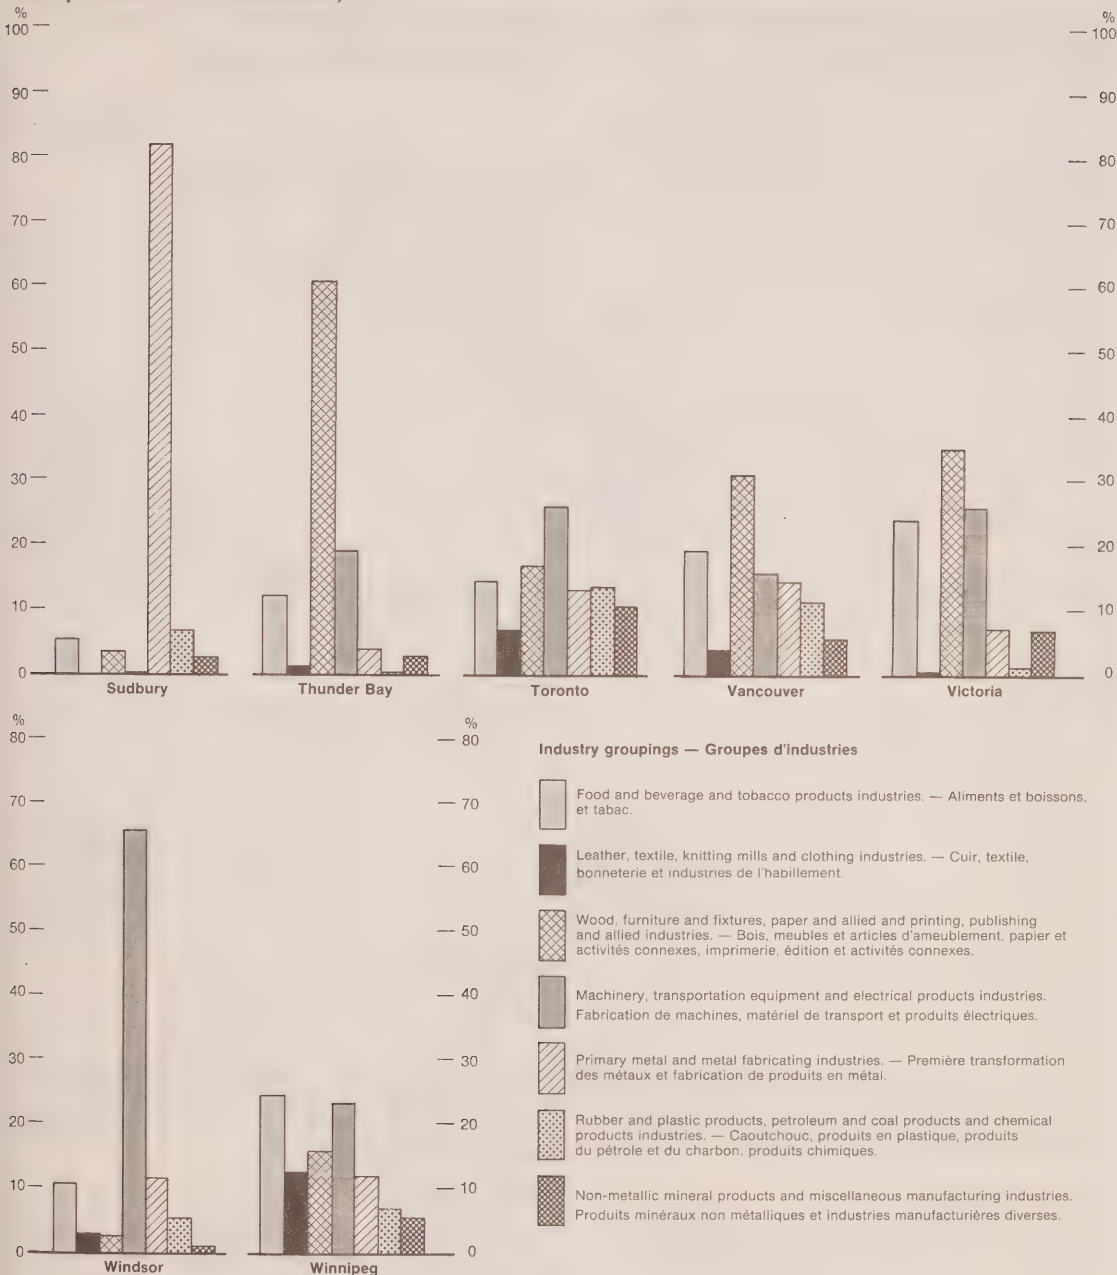

- 1 — Toronto
- 2 — Montréal
- 3 — Hamilton
- 4 — Vancouver
- 5 — Windsor
- 6 — St. Catharines-Niagara
- 7 — Kitchener
- 8 — Winnipeg
- 9 — London
- 10 — Other CMA's — Autres R.M.R.
- 11 — Other areas of Canada — Autres régions du Canada

Distribution of Industrial Activity\* by Industry Grouping within Census Metropolitan Areas, 1975

# Répartition des activités économiques\* par groupe d'industries dans les régions métropolitaines de recensement, 1975

\* Industry activity based on the average of the percentage shares of the value of shipments of goods of own manufacture, total value added and total number of employees for each of the selected metropolitan areas.

\* Fondée sur la moyenne de la proportion, en pourcentage, de la valeur de livraison de marchandises de propre fabrication, sur la valeur totale ajoutée, sur le nombre total d'employés pour chacune des régions métropolitaines choisies.

## ATLANTIC PROVINCES

### PRINCE EDWARD ISLAND

The province is one Economic Region.

#### Counties — Comtés

01 Kings

### NOVA SCOTIA

#### Economic Regions

20 Cape Breton

21 Northern Nova Scotia

22 Southern Nova Scotia

23 Annapolis Valley

24 Halifax County

#### Counties — Comtés

05 Annapolis

14 Antigonish

17 Cape Breton

10 Colchester

11 Cumberland

03 Digby

### NEW BRUNSWICK

#### Economic Regions

30 Moncton

31 Saint John

32 Northwest New Brunswick

33 Northeast New Brunswick

34 Fredericton

#### Counties — Comtés

06 Albert

11 Carleton

02 Charlotte

15 Gloucester

08 Kent

#### Statistical Areas<sup>1</sup>

1 Moncton

2 Saint John

Statistical Areas are special geographical areas involving a grouping of two or more counties or parts of counties, or occasionally a part of one county, set up to meet confidentiality requirements.

### NEWFOUNDLAND

The Census Divisions in Newfoundland are treated as counties in this publication and are identified by number only.

#### Economic Regions

00 Avalon Peninsula

01 South Coast-Burin Peninsula

02 West Coast-Labrador

03 Notre Dame Bay-Bonavista Bay

<sup>1</sup> See Appendix II for Outline of Statistical Areas.

## PROVINCES DE L'ATLANTIQUE

### ÎLE-DU-PRINCE-ÉDOUARD

La province est une région économique.

03 Prince

02 Queens

### NOUVELLE-ÉCOSSE

#### Régions Économiques

20 Cap-Breton

21 Nord-de-la-Nouvelle-Écosse

22 Sud-de-la-Nouvelle-Écosse

23 Vallée-d'Annapolis

24 Halifax, Comté de

13 Guysborough

09 Halifax

08 Hants

15 Inverness

07 Kings

06 Lunenburg

12 Pictou

04 Queens

16 Richmond

01 Shelburne

18 Victoria

02 Yarmouth

### NOUVEAU-BRUNSWICK

#### Régions économiques

30 Moncton

31 Saint John

32 Nord-Ouest-du-Nouveau-Brunswick

33 Nord-Est-du-Nouveau-Brunswick

34 Fredericton

05 Kings

13 Madawaska

09 Northumberland

04 Queens

14 Restigouche

01 Saint John

03 Sunbury

12 Victoria

07 Westmorland

10 York

#### Régions statistiques<sup>1</sup>

1 Moncton

2 Saint John

Les régions statistiques sont des régions géographiques spéciales renfermant soit deux comtés ou plus, soit à l'occasion une partie d'un comté établie pour respecter certaines exigences de confidentialité.

### TERRE-NEUVE

Les divisions de recensement de Terre-Neuve sont considérées comme des comtés dans la présente publication et ne sont identifiées que par un numéro.

#### Régions économiques

00 Péninsule d'Avalon

01 Côte-Sud-Péninsule-de-Burin

02 Côte-Ouest-Labrador

03 Baies de Notre-Dame - Bonavista

<sup>1</sup> Voir appendice II pour le Contenu des régions statistiques.

## QUEBEC

### Economic Regions

- 40 New Quebec
- 41 Lower St. Lawrence-Gaspé
- 42 Saguenay - Lake St. John
- 43 Québec
- 44 Trois-Rivières
- 45 Eastern townships
- 46 Montréal
- 47 Outaouais
- 48 Northwest
- 49 North Shore

The Economic Regions in Quebec are the same as the 10 administrative regions established by the provincial government.

### Counties — Comtés

- 84 Abitibi
- 74 Argenteuil
- 34 Arthabaska
- 40 Bagot
- 23 Beauce
- 70 Beauharnois
- 15 Bellechase
- 49 Berthier
- 04 Bonaventure
- 38 Brome
- 56 Chambly
- 32 Champlain
- 11 Charlevoix-Est
- 12 Charlevoix-Ouest
- 69 Châteauguay
- 94 Chicoutimi
- 25 Compton
- 73 Deux-Montagnes
- 22 Dorchester
- 41 Drummond
- 24 Frontenac
- 02 Gaspé-Est
- 03 Gaspé-Ouest
- 78 Gatineau
- 79 Hull

- 68 Huntingdon
- 53 Iberville
- 65 Île-de-Montréal
- 64 Île-Jésus
- 01 Îles-de-la-Madeleine<sup>1</sup>
- 58 Joliette
- 10 Kamouraska
- 76 Labelle
- 93 Lac-Saint-Jean-Est
- 90 Lac-Saint-Jean-Ouest
- 66 Laprairie
- 62 L'Assomption
- 21 Lévis
- 13 L'Islet
- 28 Lotbinière
- 47 Maskinongé
- 06 Matane
- 05 Matapédia
- 27 Mégantic
- 54 Missisquoi
- 61 Montcalm
- 14 Montmagny
- 17 Montmorency 1
- 16 Montmorency 2
- 67 Napierville

The Economic Region boundaries do not always respect county boundaries. The following counties are crossed over by one or more Economic Regions:

### Counties — Comtés

- 84 Abitibi
- 49 Berthier
- 24 Frontenac
- 58 Joliette
- 76 Labelle

- 28 Lotbinière
- 47 Maskinongé
- 27 Mégantic
- 61 Montcalm
- 75 Papineau

### Statistical Areas<sup>2</sup>

- 1 Hull
- 2 Montréal
- 3 Québec
- 4 Saint-Hyacinthe
- 5 Saint-Jean
- 6 Saint-Jérôme
- 7 Shawinigan
- 8 Trois-Rivières
- 9 Valleyfield

Statistical Areas are special geographical areas involving a grouping of two or more counties or parts of counties, or occasionally a part of one county, set up to meet confidentiality requirements.

<sup>1</sup> Île-de-la-Madeleine not shown on map.

<sup>2</sup> See Appendix II for Outline of Statistical Areas.

## QUÉBEC

### Régions économiques

- 40 Nouveau-Québec
- 41 Bas-Saint-Laurent-Gaspésie
- 42 Saguenay - Lac-Saint-Jean
- 43 Québec
- 44 Trois-Rivières
- 45 Cantons-de-l'Est
- 46 Montréal
- 47 Outaouais
- 48 Nord-Ouest
- 49 Côte-Nord

Les régions économiques du Québec sont les mêmes que les 10 régions administratives établies par l'administration provinciale.

- 33 Nicolet
- 75 Papineau
- 80 Pontiac
- 29 Portneuf
- 20 Québec
- 50 Richelieu
- 35 Richmond
- 07 Rimouski
- 08 Rivière-du-Loup
- 52 Rouville
- 97 Saguenay
- 51 Saint-Hyacinthe
- 55 Saint-Jean
- 43 Saint-Maurice
- 39 Shefford
- 36 Sherbrooke
- 71 Soulanges
- 37 Stanstead
- 83 Témiscamingue
- 09 Témiscouata
- 63 Terrebonne
- 99 Territoire-du-Nouveau-Québec
- 72 Vaudreuil
- 57 Verchères
- 26 Wolfe
- 42 Yamaska

Les limites des régions économiques ne sont pas toujours conformes à celles des comtés. Une ou plusieurs régions économiques recoupent les comtés suivants:

- 29 Portneuf
- 20 Québec
- 07 Rimouski
- 97 Saguenay
- 26 Wolfe
- 42 Yamaska

### Régions statistiques<sup>2</sup>

- 1 Hull
- 2 Montréal
- 3 Québec
- 4 Saint-Hyacinthe
- 5 Saint-Jean
- 6 Saint-Jérôme
- 7 Shawinigan
- 8 Trois-Rivières
- 9 Valleyfield

Les régions statistiques sont des régions géographiques spéciales renfermant soit deux comtés ou parties de comté ou plus, soit à l'occasion une partie d'un comté établie pour respecter certaines exigences de confidentialité.

<sup>1</sup> Île-de-la-Madeleine n'est pas indiqué sur la carte.

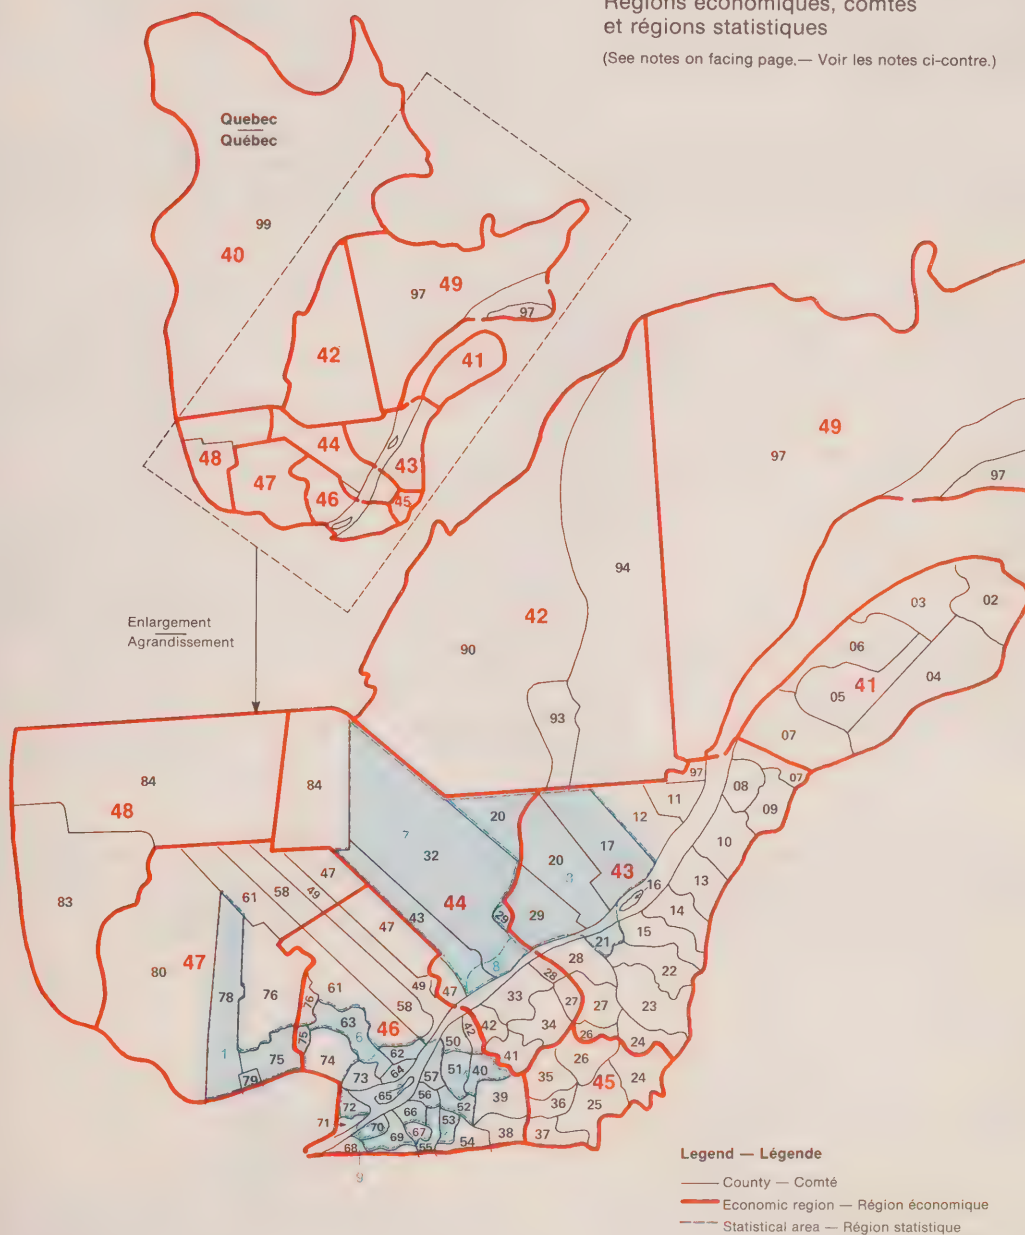

<sup>2</sup> Voir appendice II pour le Contenu des régions statistiques.

## ONTARIO

### Economic Regions

- 50 Eastern Ontario
- 51 Central Ontario
- 52 Southwestern Ontario
- 53 Northeastern Ontario
- 54 Northwestern Ontario

The Economic Regions in Ontario are the same as the five planning regions established by the provincial government.

### Counties — Comtés

- 57 Algoma District
- 29 Brant
- 41 Bruce
- 56 Cochrane District
- 22 Dufferin
- 05 Dundas
- 18 Durham, RM — MR
- 34 Elgin
- 37 Essex
- 10 Frontenac
- 01 Glengarry
- 07 Grenville
- 42 Grey
- 28 Haldimand - Norfolk, RM — MR
- 46 Haliburton
- 24 Halton, RM — MR
- 25 Hamilton - Wentworth, RM — MR
- 12 Hastings

The Economic Region boundaries always respect county boundaries except for the southern part of Algonquin Provincial Park in Nipissing District and Kenora in northern Ontario.

### Statistical Areas<sup>1</sup>

- 1 Hamilton
- 2 London
- 3 Oshawa
- 4 St. Catharines - Niagara
- 5 Toronto

Statistical Areas are special geographical areas involving a grouping of two or more counties or parts of counties, or occasionally a part of one county, set up to meet confidentiality requirements.

<sup>1</sup> See Appendix II for Outline of Statistical Areas.

## ONTARIO

### Régions économiques

- 50 Est-de-l'Ontario
- 51 Centre-de-l'Ontario
- 52 Sud-Ouest-de-l'Ontario
- 53 Nord-Est-de-l'Ontario
- 54 Nord-Ouest-de-l'Ontario

Les régions économiques de l'Ontario sont les mêmes que les cinq régions administratives établies par l'administration provinciale.

- |                               |                         |
|-------------------------------|-------------------------|
| 40 Huron                      | 15 Peterborough         |
| 60 Kenora District            | 02 Prescott             |
| 36 Kent                       | 13 Prince Edward        |
| 38 Lambton                    | 59 Rainy River District |
| 09 Lanark                     | 47 Renfrew              |
| 08 Leeds                      | 03 Russell              |
| 11 Lennox and — et Addington  | 43 Simcoe               |
| 51 Manitoulin District        | 04 Stormont             |
| 39 Middlesex                  | 52 Sudbury District     |
| 44 Muskoka District           | 53 Sudbury, RM — MR     |
| Municipality                  | 58 Thunder Bay District |
| 26 Niagara, RM — MR           | 54 Timiskaming District |
| 48 Nipissing District         | 20 Toronto Metropolitan |
| 14 Northumberland             | Municipality            |
| 06 Ottawa - Carleton, RM — MR | 16 Victoria             |
| 32 Oxford                     | 30 Waterloo, RM — MR    |
| 49 Parry Sound District       | 23 Wellington           |
| 21 Peel, RM — MR              | 19 York, RM — MR        |
| 31 Perth                      |                         |

Les limites des régions économiques sont toujours les mêmes que celles des comtés, à l'exception de la partie sud du parc provincial Algonquin situé dans le district de Nipissing et de Kenora au nord de l'Ontario.

### Régions statistiques<sup>1</sup>

- 1 Hamilton
- 2 London
- 3 Oshawa
- 4 St. Catharines - Niagara
- 5 Toronto

Les régions statistiques sont des régions géographiques spéciales renfermant soit deux comtés ou parties de comté ou plus, soit à l'occasion une partie d'un comté établie pour respecter certaines exigences de confidentialité.

<sup>1</sup> Voir appendice II pour le Contenu des régions statistiques.

Tableau 2. STATISTIQUES PRINCIPALES DES COMTES OU REGIONS STATISTIQUES, PAR GROUPE ET INDUSTRIE, 1975 - Suite

Total activity — Activité totale										Province, comté, groupe et industrie	Code			
Working owners and partners — Propriétaires et associés actifs	Employees — Salarés					Cost of materials, supplies and goods for resale — Coût des matières, des fournitures et des marchandises destinées à la revente	Value of shipments and other revenue — Valeur des livraisons et autres recettes	Value added — Valeur ajoutée						
	Administrative, office and other non-manufacturing employees — Administration, bureau et autre personnel hors fabrication			Total employees — Total des salariés										
	Male — Hommes	Female — Femmes	Salaries — Traitements	Number — Nombre	Salaries and wages — Traitements et salaires	Coût des matières, des fournitures et des marchandises destinées à la revente	Valeur des livraisons et autres recettes	Valeur ajoutée						
	number - nombre		\$'000			\$'000

<sup>1</sup> Includes all such reporting units included in provincial totals in reports on individual manufacturing industries at the three-digit or four-digit level of the 1970 Standard Industrial Classification. See the section on "separately located head offices, sales offices and ancillary units" in the "Introduction" (page xiii).

<sup>2</sup> Ce poste comprend toutes les unités dans les rapports provinciaux sur la statistique des manufactures ou comptées dans le total par province dans les rapports sur les industries manufacturières individuelles à l'échelon des indicatifs à trois ou quatre de la Classification des activités économiques de 1970. Voir la section intitulée "sièges sociaux, bureaux de vente et unités auxiliaires situés ailleurs" dans l'"introduction" (page xiii).

<sup>2</sup> The following municipalities also have head offices, sales offices and ancillary units but data for these cannot be published: Newfoundland: Happy Valley, Heart's Delight (subdivision E). Nova Scotia: Berwick, Shelburne. New Brunswick: Campbellton, Edmundston, Sackville. Quebec: Drummondville, Chicoutimi, Granby, Greenfield Park, Hull, Longueuil, Laval, Laurentides, Noranda, Rimouski, Rivières-du-loup, Salaberry-de-Valleyfield, Saint-Esprit, Sainte-Foy, Sainte-Hyacinthe, Saint Pierre (Île-de-Montréal), Sainte-Anne-de-Bellevue, Shawinigan, Sherbrooke, Trois-Rivières, Val d'Or, Vanier, Verdun. Ontario: Ajax, Aurora, Aylmer, Brampton, Brantford, Brockville, Burlington, Cambridge, Chatham, Cobourg, Fort Erie, Gloucester, Halton Hills, Kingston, Lincoln, Markham, Nepean, Niagara Falls, North Bay, Norwood, Orillia, Oshawa, Perth, Pembroke, St. Catharines, Sarnia, Sault Ste. Marie, Strathroy, Stoney Creek, Smiths Falls, Stratford, Thorold, Timmins, Tillsonburg, Thunder Bay, Vaughan, Waterloo, Welland, Whitby. Manitoba: Dauphin, Selkirk. Saskatchewan: Kelliker, Moose Jaw, Prince Albert. Alberta: Leduc, Lethbridge, Medicine Hat, Provost. British Columbia: Abbotsford, Campbell River, Cranbrook, Danson Creek, Duncan, Fort Nelson, Golden, Nanaimo, Nelson, Penticton, Prince George, Prince Rupert, Surrey, Trail, Terrace, Vernon, Victoria.

<sup>2</sup> Les municipalités suivantes comprennent également des sièges sociaux, bureaux de vente et unités auxiliaires mais les chiffres de ceux-ci ne peuvent être publiés: Terre-Neuve: Happy Valley, Heart's Delight (subdivision E). Nouvelle-Écosse: Berwick, Shelburne. Nouveau-Brunswick: Campbellton, Edmundston, Sackville. Québec: Drummondville, Chicoutimi, Granby, Greenfield Park, Hull, Longueuil, Laval, Laurentides, Noranda, Rimouski, Rivières-du-loup, Salaberry-de-Valleyfield, Saint-Esprit, Sainte-Foy, Saint-Hyacinthe, Saint Pierre (Île-de-Montréal), Saint-Anne-de-Bellevue, Shawinigan, Sherbrooke, Trois-Rivières, Val d'Or, Vanier, Verdun. ### 1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION (MANUFACTURING INDUSTRIES)

#### Appendice III

### RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES (INDUSTRIES MANUFACTURIÈRES)

SIC Code	Industry group and industry	Code de la CAE	Groupe d'industries et industrie
<b>1 – FOOD AND BEVERAGE INDUSTRIES:</b>		<b>1 – INDUSTRIE DES ALIMENTS ET BOISSONS:</b>	
101	Meat and poultry products industries	101	Industrie de la viande et de la volaille
1011	Slaughtering and meat processors	1011	Abattage et conditionnement de la viande
1012	Poultry processors	1012	Conditionnement de la volaille
102	Fish products industry	102	Industrie de la transformation du poisson
103	Fruit and vegetable processing industries	103	Préparation de fruits et de légumes
1031	Fruit and vegetable canners and preservers	1031	Conserveries de fruits et de légumes
1032	Frozen fruit and vegetable processors	1032	Préparation de fruits et de légumes congelés
104	Dairy products industry	104	Industrie laitière
105	Flour and breakfast cereal products industry	105	Meunerie et fabrication de céréales de table
106	Feed industry	106	Fabrication d'aliments pour les animaux
107	Bakery products industries	107	Boulangerie et pâtisserie (fabrication)
1071	Biscuit manufacturers	1071	Fabricants de biscuits
1072	Bakeries	1072	Boulangeries
108	Miscellaneous food industries	108	Industries alimentaires diverses
1081	Confectionery manufacturers	1081	Fabricants de confiserie
1082	Cane and beet sugar processors	1082	Traitement du sucre de canne et de betteraves
1083	Vegetable oil mills	1083	Moulins à huile végétale
1089	Miscellaneous food processors, n.e.s.	1089	Traitement de produits alimentaires divers, n.c.a.
109	Beverage industries	109	Industrie des boissons
1091	Soft drink manufacturers	1091	Fabricants de boissons gazeuses
1092	Distilleries	1092	Distilleries
1093	Breweries	1093	Brasseries
1094	Wineries	1094	Producteurs de vin
<b>2 – TOBACCO PRODUCTS INDUSTRIES:</b>		<b>2 – INDUSTRIE DU TABAC:</b>	
151	Leaf tobacco processors	151	Traitement du tabac en feuilles
153	Tobacco products manufacturers	153	Fabricants de produits du tabac
<b>3 – RUBBER AND PLASTICS PRODUCTS INDUSTRIES:</b>		<b>3 – INDUSTRIE DU CAOUTCHOUC ET DES PRODUITS EN MATIÈRE PLASTIQUE:</b>	
162	Rubber products industries	162	Industrie des produits en caoutchouc
1623	Tire and tube manufacturers	1623	Fabricants de pneus et de chambres à air
1624	Rubber footwear manufacturers	1624	Fabricants de chaussures en caoutchouc
1629	Miscellaneous rubber products manufacturers	1629	Fabricants de produits divers en caoutchouc
165	Plastics fabricating industry, n.e.s.	165	Fabrication d'articles en matière plastique, n.c.a.
<b>4 – LEATHER INDUSTRIES:</b>		<b>4 – INDUSTRIE DU CUIR:</b>	
172	Leather tanneries	172	Tanneries
174	Shoe factories	174	Fabriques de chaussures
175	Leather glove factories	175	Fabriques de gants en cuir
179	Luggage, handbag and small leather goods manufacturers	179	Fabricants de valises, sacs à main et menus articles en cuir
1792	Boot and shoe findings manufacturers	1792	Fabricants d'accessoires pour bottes et chaussures
1799	Miscellaneous leather products manufacturers	1799	Fabricants d'articles divers en cuir

# 1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION (MANUFACTURING INDUSTRIES) – Continued

## RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES (INDUSTRIES MANUFACTURIÈRES) – suite

SIC Code	Industry group and industry	Code de la CAE	Groupe d'industries et industrie
<b>5 – TEXTILE INDUSTRIES:</b>		<b>5 – INDUSTRIE TEXTILE:</b>	
181	Cotton yarn and cloth mills	181	Filature et tissage du coton
182	Wool yarn and cloth mills	182	Filature et tissage de la laine
183	Man-made fibre, yarn and cloth mills	183	Fabrication de fibres, filés et tissus artificiels et synthétiques
1831	Fibre and filament yarn manufacturers	1831	Fabricants de filés de fibres et de filaments
1832	Throwsters, spun yarn and cloth mills	1832	Moulinages, filatures et tissages
184	Cordage and twine industry	184	Corderie et ficellerie (fabrication)
185	Felt and fibre processing mills	185	Industrie du feutre et du traitement des fibres
1851	Fibre processing mills	1851	Usines de traitement de fibres
1852	Pressed and punched felt mills	1852	Fabriques de feutre pressé et aéré
186	Carpet, mat and rug industry	186	Industrie des tapis, des carpettes et de la moquette
187	Canvas products and cotton and jute bags industries	187	Industrie des articles en grosse toile et des sacs de coton et de jute
1871	Cotton and jute bags manufacturers	1871	Fabricants de sacs de coton et de jute
1872	Canvas products manufacturers	1872	Fabricants d'articles en grosse toile
188	Automobile fabric accessories industry	188	Industrie des accessoires en tissu pour l'automobile
189	Miscellaneous textile industries	189	Industries textiles diverses
1891	Thread mills	1891	Fabriques de fil
1892	Narrow fabric mills	1892	Rubannerie (fabrication)
1893	Embroidery, pleating and hemstitching manufacturers	1893	Fabricants de broderie, plissage et ourlets à jour
1894	Textile dyeing and finishing plants	1894	Usines de teinture et de finissage de textiles
1899	Miscellaneous textile industries, n.e.s.	1899	Industries textiles diverses, n.c.a.
<b>6 – KNITTING MILLS:</b>		<b>6 – BONNETERIE:</b>	
231	Hosiery mills	231	Industrie des bas et chaussettes
239	Knitting mills (except hosiery mills)	239	Bonnerie (sauf fabrication de bas et chaussettes)
2391	Knitted fabric manufacturers	2391	Fabricants de tissu à mailles
2392	Other knitting mills	2392	Autres fabricants de tricot
<b>7 – CLOTHING INDUSTRIES:</b>		<b>7 – INDUSTRIE DE L'HABILLEMENT:</b>	
243	Men's clothing industries	243	Industrie des vêtements pour hommes
2431	Men's clothing factories	2431	Usines de confection de vêtements pour hommes
2432	Men's clothing contractors	2432	Confectionneurs à forfait de vêtements pour hommes
244	Women's clothing industries	244	Industrie des vêtements pour dames
2441	Women's clothing factories	2441	Usines de confection de vêtements pour dames
2442	Women's clothing contractors	2442	Confectionneurs à forfait de vêtements pour dames
245	Children's clothing industry	245	Industrie des vêtements pour enfants
246	Fur goods industry	246	Industrie des articles en fourrure
248	Foundation garment industry	248	Industrie des corsets et soutiens-gorge
249	Miscellaneous clothing industries	249	Industries diverses de l'habillement
2491	Fabric glove manufacturers	2491	Fabricants de gants en tissu
2492	Hat and cap industry	2492	Industrie des chapeaux et casquettes
2499	Miscellaneous clothing industries, n.e.s.	2499	Industries diverses du vêtement, n.c.a.
<b>8 – WOOD INDUSTRIES:</b>		<b>8 – INDUSTRIE DU BOIS:</b>	
251	Sawmills, planing mills and shingle mills	251	Scieries, ateliers de rabotage et usines de bardeaux
2511	Shingle mills	2511	Usines de bardeaux
2513	Sawmills and planing mills	2513	Scieries et ateliers de rabotage
252	Veneer and plywood mills	252	Fabriques de placages et de contre-plaqués
254	Sash, door and other millwork plants	254	Industrie des portes, châssis et autres bois ouvrés
2541	Sash, door and other millwork plants, n.e.s.	2541	Fabrication de portes, châssis et autres bois ouvrés, n.c.a.
2542	Hardwood flooring plants	2542	Fabrication de parquets en bois dur
2543	Manufacturers of pre-fabricated buildings (woodframe construction)	2543	Préfabrication de bâtiments (charpentes en bois)
2544	Manufacturers of wooden kitchen cabinets	2544	Fabricants d'armoires de cuisine en bois
256	Wooden box factories	256	Fabriques de boîtes en bois
258	Coffin and casket industry	258	Industrie des cercueils
259	Miscellaneous wood industries	259	Industries diverses du bois
2591	Wood preservation industry	2591	Traitement protecteur du bois
2592	Wood handles and turning industry	2592	Fabrication de manches en bois et tournage sur bois
2593	Manufacturers of particle board	2593	Fabricants de panneaux agglomérés
2599	Miscellaneous wood industries, n.e.s.	2599	Industries diverses du bois, n.c.a.

# 1970 REVISION OF THE STANDARD INDUSTRIAL CLASSIFICATION (MANUFACTURING INDUSTRIES) - Continued

## RÉVISION DE 1970 DE LA CLASSIFICATION DES ACTIVITÉS ÉCONOMIQUES (INDUSTRIES MANUFACTURIÈRES) - suite

SIC Code	Industry group and industry	Code de la CAE	Groupe d'industries et industrie
<b>9 - FURNITURE AND FIXTURE INDUSTRIES:</b>		<b>9 - INDUSTRIE DU MEUBLE ET DES ARTICLES D'AMEUBLEMENT:</b>	
261	Household furniture manufacturers	261	Industrie des meubles de maison
2611	Furniture re-upholstery and repair shops	2611	Réfection de rembourrage et réparation de meubles
2619	Household furniture manufacturers, n.e.s.	2619	Industrie des meubles de maison, n.c.a.
264	Office furniture manufacturers	264	Industrie des meubles de bureau
266	Miscellaneous furniture and fixtures manufacturers	266	Industrie des articles d'ameublement divers
268	Electric lamp and shade manufacturers	268	Industrie des lampes électriques et des abat-jour
<b>10 - PAPER AND ALLIED INDUSTRIES:</b>		<b>10 - INDUSTRIE DU PAPIER ET ACTIVITÉS ANNEXES:</b>	
271	Pulp and paper mills	271	Usines de pâtes et papiers
272	Asphalt roofing manufacturers	272	Fabricants de papier de couverture asphalté
273	Paper box and bag manufacturers	273	Fabricants de boîtes en carton et de sacs en papier
2731	Folding carton and set-up box manufacturers	2731	Fabricants de cartons pliants et de boîtes montées
2732	Corrugated box manufacturers	2732	Fabricants de boîtes en carton ondulé
2733	Paper and plastic bag manufacturers	2733	Fabricants de sacs en papier et en plastique
274	Miscellaneous paper converters	274	Transformations diverses du papier
<b>11 - PRINTING, PUBLISHING AND ALLIED INDUSTRIES:</b>		<b>11 - IMPRIMERIE, ÉDITION ET ACTIVITÉS ANNEXES:</b>	
286	Commercial printing	286	Imprimerie commerciale
287	Platemaking, typesetting and trade bindery industry	287	Industrie du clichage, de la composition et de la reliure commerciale
288	Publishing only	288	Édition seulement
289	Publishing and printing	289	Édition et impression
<b>12 - PRIMARY METAL INDUSTRIES:</b>		<b>12 - PREMIÈRE TRANSFORMATION DES MÉTAUX</b>	
291	Iron and steel mills	291	Sidérurgie
292	Steel pipe and tube mills	292	Fabriques de tubes et tuyaux d'acier
294	Iron foundries	294	Fonderies de fer
295	Smelting and refining	295	Fonte et affinage
296	Aluminum rolling, casting and extruding	296	Laminage, moulage et extrusion de l'aluminium
297	Copper and copper alloy rolling, casting and extruding	297	Laminage, moulage et extrusion du cuivre et de ses alliages
298	Metal rolling, casting and extruding, n.e.s.	298	Laminage, moulage et extrusion des métaux, n.c.a.
<b>13 - METAL FABRICATING INDUSTRIES (EXCEPT MACHINERY AND TRANSPORTATION EQUIPMENT INDUSTRIES):</b>		<b>13 - FABRICATION DE PRODUITS EN MÉTAL (SAUF MACHINES ET ÉQUIPEMENT DE TRANSPORT):</b>	
301	Boiler and plate works	301	Industrie des chaudières et des plaques
302	Fabricated structural metal industry	302	Fabrication d'éléments de charpente métallique
303	Ornamental and architectural metal industry	303	Industrie des produits métalliques d'architecture et d'ornement
3031	Metal door and window manufacturers	3031	Fabricants de portes et fenêtres métalliques
3039	Ornamental and architectural metal industry, n.e.s.	3039	Fabrication de produits métalliques d'architecture et d'ornement, n.c.a.
304	Metal stamping, pressing and coating industry	304	Industrie de l'emboutissage, du matricage et du revêtement des métaux
3041	Metal coating industry	3041	Industrie du revêtement des métaux
3042	Metal stamping and pressing industry	3042	Industrie de l'emboutissage et du matricage des métaux
305	Wire and wire products manufacturers	305	Industrie du fil métallique et de ses produits
306	Hardware, tool and cutlery manufacturers	306	Fabricants de quincaillerie, d'outillage et de coutellerie
307	Heating equipment manufacturers	307	Fabricants d'appareils de chauffage
308	Machine shops	308	Ateliers d'usinage
309	Miscellaneous metal fabricating industries	309	Fabrication de produits métalliques divers
<b>14 - MACHINERY INDUSTRIES (EXCEPT ELECTRICAL MACHINERY):</b>		<b>14 - FABRICATION DE MACHINES (SAUF ÉLECTRIQUES):</b>	
311	Agricultural implement industry	311	Fabricants d'instruments aratoires
315	Miscellaneous machinery and equipment manufacturers	315	Fabricants de machines et d'équipement divers
316	Commercial refrigeration and air conditioning equipment manufacturers	316	Fabricants d'équipement commercial de réfrigération et de climatisation
318	Office and store machinery manufacturers	318	Fabricants de machines pour le bureau et le commerce

3992	Button, buckle and fastener manufacturers	3992	Fabricants de boutons, de boucles et d'agrafes
3993	Floor tile, linoleum and coated fabrics manufacturers	3993	Fabricants de carreaux, de dalles, de linoléum et de tissus enduits
3994	Sound recording and musical instrument manufacturers	3994	Enregistrement du son et fabrication d'instruments de musique
3995	Stamp and stencil (rubber and metal) manufacturers	3995	Fabricants de tampons et de pochoirs (en caoutchouc ou en métal)
3996	Pen and pencil manufacturers	3996	Fabricants de stylos et de crayons
3997	Typewriter supplies manufacturers	3997	Fabricants de fournitures pour la dactylographie
3998	Fur dressing and dyeing	3998	Apprêtage et teinture de fourrure
3999	Other miscellaneous manufacturing industries	3999	Autres industries manufacturières diverses

## SELECTED PUBLICATIONS

### Reports on the Annual Census of Manufactures

This report is one of the general, or all-industry, series presenting the results of the annual Census of Manufactures. The complete general series, containing principal statistics on individual industries and industry groups for all of Canada or its various geographical subdivisions, is as follows:

#### Catalogue

##### Annual Reports

- 31-203 Manufacturing industries of Canada: National and Provincial Areas
- 31-209 Manufacturing Industries of Canada: Sub-provincial Areas<sup>1</sup>
- 31-210 Manufacturing Industries of Canada: Type of Organization and Size of Establishment
- 31-211 Products Shipped by Canadian Manufacturers
- 31-212 Consumption of Containers and Other Packaging Supplies by the Manufacturing Industries
- 57-208 Consumption of Purchased Fuel and Electricity by the Manufacturing, Mining and Electric Power Industries

##### Biennial Reports

- 31-401 Domestic and Foreign Control of Manufacturing, Mining and Logging Establishments in Canada
- 31-402 Industrial Organization and Concentration in the Manufacturing, Mining and Logging Industries

##### Occasional Reports

- 31-522 Destination of Shipments of Manufacturers, 1974
- 31-523 Structural Aspects of Domestic and Foreign Control in the Manufacturing, Mining and Forestry Industries, 1970-1972
- 31-528 Concepts and Definitions of the Census of Manufactures

---

<sup>1</sup> Principal statistics of industries for economic regions, counties or census divisions, Census Metropolitan Areas, specific Census Agglomerations and municipalities.

In addition to these general reports, some 120 annual reports on individual industries contain quantities and values of products shipped and of materials used by the individual industry as well as some of the principal statistics carried in the general reports and certain additional industry information.

A list of all the reports on the Census of Manufactures is included in the bureau's Subscription Order Form, obtainable on request from the Publications Distribution Unit, Statistics Canada, Ottawa.

## CHOIX DE PUBLICATIONS

### Rapports concernant le recensement annuel des manufactures

Le présent rapport fait partie de la série générale qui s'applique à toutes les industries et qui donne les résultats du recensement annuel des manufactures. Voici la série générale complète contenant les statistiques principales sur chaque industrie en particulier et sur les groupes d'industries au Canada entier ou dans ses différentes subdivisions géographiques:

#### Catalogue

##### Rapports annuels

- 31-203 Industries manufacturières du Canada: Niveaux national et provincial
- 31-209 Industries manufacturières du Canada: Niveau infraprovincial<sup>1</sup>
- 31-210 Industries manufacturières du Canada: Forme d'organisation et taille des établissements
- 31-211 Produits livrés par les fabricants canadiens
- 31-212 Consommation de contenants et autres matières d'emballage, par industrie manufacturière
- 57-208 Consommation de combustibles et d'électricité achetés par les industries manufacturières et minérales et par les centrales thermiques des services d'électricité

##### Rapports biennaux

- 31-401 Le contrôle national et étranger des établissements du secteur de la fabrication, des mines et de l'abattage au Canada
- 31-402 Organisation des industries et concentration dans le secteur de la fabrication, des mines et de l'abattage

##### Hors série

- 31-522 Destination des livraisons des manufacturiers, 1974
- 31-523 Les aspects structureaux du contrôle national et étranger dans les industries manufacturières, minières et forestières, 1970-1972
- 31-528 Concepts et définitions du recensement des manufactures

---

<sup>1</sup> Statistiques principales sur les industries pour les régions économiques les comtés ou divisions de recensement, les régions métropolitaines de recensement, des certaines agglomérations de recensement et des municipalités.

En plus de ces rapports généraux, il existe quelque 120 publications annuelles sur des industries particulières; celles-ci contiennent les données suivantes: quantité et valeur des produits livrés et des matières utilisées par chaque industrie, certaines des statistiques principales publiées dans les rapports généraux et certaines données supplémentaires sur chaque industrie.

Le bulletin d'abonnement contient une liste de toutes les publications du recensement des manufactures; on peut obtenir le bulletin d'abonnement en en faisant la demande à Distribution des publications, Statistique Canada, Ottawa.

## EXPLANATORY NOTES

The following abbreviated notes deal only with salient points or selected inclusions or exclusions which might not be self-evident. Detailed concepts and definitions may be obtained by ordering *Concepts and Definitions of the Census of Manufactures*, Catalogue 31-528. This may be ordered from the Publications Distribution Unit, Statistics Canada, Ottawa, Ontario, K1A 0T6.

**1. Establishment.** The smallest operating unit capable of reporting certain specified input and output data; usually a plant or mill. Numbers for 1975 declined owing to the exclusion of existing establishments deemed to have no paid employees. Principal statistics of an establishment active in more than one municipality are prorated to "quasi-establishment" locations, treated as establishments in compilations.

**2. Reporting period.** Any fiscal year ending not earlier than April 1 of the reference year of later than March 31 the following year.

**3. Cost of materials and supplies.** Generally, consumption of purchased items only at laid-down cost including transportation and handling charges, duties, etc. Includes transfers between units of the same company and work done on contract by others. At the manufacturing activity level, this item represents purchased items used in manufacturing operations.

**4. Cost of fuel and electricity.** Consumption of purchased fuel and electricity only, at laid-down cost including transportation and handling charges, duties, etc. Applies to large establishments only (see note on Small establishments). Data for non-manufacturing activity included under manufacturing activity.

**5. Value of shipments of goods of own manufacture.** Net selling value of goods made by reporting establishment, or for its account, from its own materials. Excludes discounts, returns, allowances, sales tax, excise taxes and duties, returnable containers, common or contract carriers' charges for outward transportation (but not own carriers' delivery expense). Includes repair and custom revenue, transfers to reporting units of same firm, all exports, book value of own products shipped the first time on a rental basis. Includes consignment shipments to other countries, but domestic consignment shipments are included in inventory until sold.

**Value added.** Net output as measured by gross output less purchased commodity inputs used and contract work by others.

(a) Value added, manufacturing activity: value of shipments of goods of own manufacture plus net change in inventory of goods in process and finished goods, less cost of materials and supplies used, fuel and electricity.

(b) Value added, total activity: consists of (1) value added, manufacturing activity and (2) value added, non-manufacturing activity. The latter is calculated by subtracting relevant commodity inputs from non-manufacturing revenue or outputs; these commodity inputs are net of the change in inventories of goods purchased for resale. Non-manufacturing revenues include depreciable fixed assets produced by own work force for own use, revenue from product rentals, etc., but exclude non-operating revenue such as real property rentals, dividends, interest.

**6. Employees, salaries and wages.** Salaries and wages are shown before deductions for income tax and employee portion of employee benefits and include payments for regular work, overtime and paid leave as well as bonuses, commissions paid to regular employees. Production and related workers in manufacturing activity include those employees at the establishment engaged in processing, assembling, storing, inspecting, handling, packing, maintenance, repair, janitorial and watchmen services and working foremen. (Outside pieceworkers' remuneration is included in cost of materials.) Respondents are asked for average month-end employment.

**7. Inventories.** Book value of owned inventory held in Canada, including goods in transit and on consignment.

**8. Small establishments.** For establishments below size limits varied to assure adequate coverage of industry totals by large-establishment returns, a simplified "short form" questionnaire is used or, if applicable a regular financial statement is accepted. This involves certain departures, beginning 1970, from definitions used for large establishments. "Cost of materials, supplies and services" includes all purchased services and fuel and electricity. Consequently, the value of fuel and electricity is not available for small establishments, resulting in an understatement of this item in certain industries and geographic areas. Number of employees is imputed from salaries and wages, with imputation also of male and female numbers and man-hours. All data are classified to manufacturing activity. Value added differs from that of large establishments in that purchased services are included with the cost of materials and supplies used for short forms, but excluded for large establishments, resulting in exclusion of purchased services from value added for short forms but its inclusion in value added of large establishments. Totals for size groups or geographical areas dominated by small establishments may have limited comparability with totals for previous years or other geographical areas.

**9. Head offices, sales offices and ancillary units.** Included in the individual industry of the company's largest activity. (The allocation of some such units to the major industry group level was discontinued with the 1970 data.)

## NOTES EXPLICATIVES

Les notes succinctes ci-après s'appliquent uniquement aux points saillants ou — à certaines extensions ou restrictions pouvant nécessiter une explication. On peut obtenir sur demande les concepts et définitions détaillés en commandant *Concepts et définitions du recensement des manufactures*, n° 31-528 au catalogue, que l'on peut obtenir de la Distribution des publications, Statistique Canada, Ottawa (Ontario), K1A 0T6.

**1. Établissement.** La plus petite unité d'exploitation, en général une usine ou une fabrique, en mesure de fournir certaines données sur ses entrées et sorties. Le nombre d'établissements pour 1975 a diminué à cause de l'exclusion des établissements qui ont été jugés de ne pas avoir d'employés. Les statistiques principales d'un établissement exerçant son activité dans plus d'une municipalité sont attribuées au prorata à des quasi-établissements. Ces derniers sont considérés comme des établissements dans les totalisations.

**2. Période de déclaration.** Toute année financière terminée au plus tôt le 1<sup>er</sup> avril de l'année de référence ou après le 31 mars de l'année suivante.

**3. Coût des matières et fournitures.** En général, il s'agit uniquement des produits utilisés et achetés au prix livré, les frais de transport et de manutention, les droits, etc., étant inclus. Comprend les transferts entre les unités d'une même société et les travaux exécutés par d'autres sous contrat. Au niveau de l'activité manufacturière, ce poste représente les produits achetés qui entrent dans la fabrication.

**4. Coût du combustible et de l'électricité.** Il s'agit uniquement du combustible et de l'électricité consommés et achetés au prix livré, les frais de transport et de manutention, les droits, etc., étant inclus. S'applique seulement aux grands établissements (voir note sur les petits établissements). Les données relatives à l'activité non manufacturière figurent avec le secteur de la fabrication.

**5. Valeur des livraisons de produits de propre fabrication.** Valeur nette des ventes de produits fabriqués par l'établissement déclarant, ou pour son compte, à partir de matières lui appartenant, sans tenir compte des rabais, retours de marchandises, remises, taxes de ventes, taxes et droits d'accise, contenants restituables, frais de livraison payés à des transporteurs publics ou à forfait (mais non des frais de livraison de l'établissement même). Comprend les recettes au titre de réparations et de contrats, les transferts à d'autres unités déclarantes du même établissement, toutes les exportations, la valeur comptable des propres produits de l'établissement donnés en location la première fois. Les livraisons en consignation destinées à d'autres pays sont comprises mais les livraisons en consignation au Canada figurent avec les stocks jusqu'à la vente.

**Valeur ajoutée.** Production nette, soit production brute moins consommation de produits achetés et travaux exécutés par d'autres sous contrat.

a) Valeur ajoutée, activité manufacturière: valeur des livraisons de produits de propre fabrication, plus variation nette des stocks de produits en cours et de produits finis, moins coût des matières et des fournitures utilisées, du combustible et de l'électricité.

b) Valeur ajoutée, activité totale: comprend (1) la valeur ajoutée par l'activité manufacturière et (2) la valeur ajoutée par l'activité non manufacturière. Cette dernière s'obtient en soustrayant les entrées de marchandises des recettes ou des sorties provenant de l'activité non manufacturière, après avoir soustrait de ces entrées la variation des stocks de produits achetés pour la revente. Les recettes provenant de l'activité non manufacturière comprennent les immobilisations amortissables produites par la main-d'œuvre de l'établissement pour son usage propre, les recettes de location de produits, etc., mais non les recettes hors exploitation, comme les loyers d'immeubles, les dividendes, les intérêts.

**6. Salariés, traitements et salaires.** Les traitements et les salaires sont pris en compte avant les retenues au titre de l'impôt sur le revenu et les cotisations aux fins des avantages sociaux versées par l'employeur, et comprennent la rémunération des heures normales et supplémentaires et des congés payés, ainsi que les primes et commissions accordées aux salariés réguliers. Les travailleurs de la production et assimilés classés dans l'activité manufacturière comprennent les salariés de l'établissement affectés à la transformation, au montage, à l'entreposage, au contrôle, à la manutention, à l'emballage, à l'entretien et à la réparation, ainsi que les concierges, gardiens et contremaîtres de l'établissement. (La rémunération des ouvriers à la pièce de l'extérieur est comprise dans le coût des matières.) On demande aux enquêtés d'indiquer le nombre moyen de leurs salariés à la fin du mois.

**7. Stocks.** Valeur comptable des stocks détenus en toute propriété au Canada, y compris les marchandises en transit ou en consignation.

**8. Petits établissements.** Pour les établissements en deçà des limites de taille, modifiées afin de prendre en compte de façon aussi complète que possible des chiffres déclarés par les grands établissements, on utilise une "formule abrégée" ou, le cas échéant, un état financier ordinaire. On a dû pour cela s'écarter, à partir de 1970, des définitions utilisées pour les grands établissements. Le "coût des matières, fournitures et services" comprend tous les services achetés ainsi que le combustible et l'électricité. De la sorte, la valeur du combustible et de l'électricité n'est pas connue pour les petits établissements, ce qui entraîne une sous-évaluation de ce poste pour certaines industries et régions géographiques. On impute le nombre de salariés à partir des traitements et des salaires, ainsi que le nombre d'hommes et de femmes et le nombre d'heures-hommes. Toutes les données sont classées à l'activité manufacturière. La valeur ajoutée diffère de celle des grands établissements en ce que les services achetés sont compris dans le coût des matières et des fournitures sur les formules abrégées mais non sur les formules destinées aux grands établissements; par conséquent, les services achetés sont exclus de la valeur ajoutée sur les formules abrégées mais sont inclus dans le cas des grands établissements. Les totaux des groupes de taille ou des régions géographiques où dominent les petits établissements peuvent ne présenter que peu de points de comparaison avec les chiffres des années précédentes ou ceux d'autres régions géographiques.

**9. Sièges sociaux, bureaux de vente et unités auxiliaires.** Classés avec l'industrie qui représente l'activité principale de la société. (Le classement de certaines de ces unités au niveau des groupes a cessé à partir de 1970.)
